**Validating Technological Innovation** David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

**The European Union, the World Bank and the Policymaking of Aid** Eugenia Baroncelli, 2019-01-03 Based on the experience of the author, an IPE scholar and former trade policy consultant at the World Bank, WB, the book offers an in-depth exploration of the EU-WB relations conceptualized as hybrid delegation. Coupling cross-time analyses of their interaction in the regions of the Middle East and North Africa, Europe and Central Asia, and Sub-Saharan Africa, with an original investigation on the coordination among the EU member states at the Executive Board of the International Bank for Reconstruction and Development over the voice and participation reform of 2008-2010, the book advances an innovative theoretical framework to assess the EU-WB joint institutional and field policy performances. Augmented PA models of delegation, role theory, and performance analyses are engaged and selectively recombined to investigate the nature, evolution, and impact of the interactions of the two organizations both in their everyday and constituent politics. Hybrid delegation in motion is reconstructed against the background of post-Washington Consensus and post-Lisbon EU to unveil the changing division of labour between the two largest development multilaterals of the new global context. The book will be of interest to scholars, students, and practitioners in European Politics, Development, International Relations, International Political Economy, and Global Economic Governance.
