Essays in Controversy - Some Disturbing and Unsettling Realities Sumitra Woodhull, 2014-10-24 This is a piece of work predominantly inspired by the author's own experiences as a person of minority ethnicity in a racially biased multiracial society. The many experiences of prejudice in such a society have prompted the author to advocate against such abuses of human rights. **Short Essays** Gerald Levin, 1995 **Fictional Realities / Real Fictions. Contemporary Theatre in Search of a New Mimetic Paradigm** Mateusz Borowski, Malgorzata Sugiera, 2009-03-26

The collection of essays *Fictional Realities Real Fictions Contemporary Theatre in Search of a New Mimetic Paradigm* tackles the problem of fictionality and reality in contemporary theatre practice and playwriting. It approaches this hotly debated issue in a larger context of the theories of theatrical and dramatic mimesis. The volume provides an answer to the most recent developments in performative arts such as the widespread use of new media technologies, the popularity of site-specific productions and the flourishing of various post-dramatic forms of expression. The phenomena scrutinized in this collection call into question the basic dichotomy between the fictional and the real on which the theory and practice of the Western theatre has been based right from its inception. However, due to their extremely heterogeneous character, they pose a considerable problem for researchers and teachers who still do not find a widely applicable methodology for the analysis of contemporary performances and texts for the theatre. *Fictional Realities Real Fictions* sets the discussion of the onset of a new mimetic paradigm in three interrelated contexts: the new perceptual patterns forged by contemporary theatre, the use of media on stage and the strategies of today's political theatre. The case studies presented here, in spite of their thematic diversity, are subordinated to a single theoretical framework. Thus, they turn out extremely useful both for the scholars investigating the problems of contemporary theatre and students of theatre and drama. *Fictional Realities Real Fictions* offers them a rigid methodological scaffolding supported by a number of illustrative examples from a variety of cultural contexts and theatre traditions, which gives them an opportunity to extrapolate from the main argument of the volume to their own research. **Essays in Biography** Joseph

Epstein, 2012-09-14 Who is the greatest living essayist writing in English? Unquestionably Joseph Epstein. Epstein is penetrating. He is witty. He has a magic touch with words that hard to define but immediately recognizable quality called style. Above all, he is impossible to put down. How easy it is today to forget the simple delight of reading for no intended purpose. Each of the 39 pieces in this book is a pure pleasure to read. Now with linking endnotes and index. **Philosophy History**

Sophistry Dennis Rohatyn, 2022-04-25 Post-modernism believes in nothing, not even unbelief. Hence it is a genial version of nihilism and the flip side of despair. Like skepticism from which it descends, it is healthy insofar as it rejects all dogmas but unhealthy insofar as it substitutes its own while eating its own essence. This book diagnoses this disease and offers irony as its cure. What failure of nerve did Hellenism's strength of character must do for the decline of the best? Humor, laughter and detachment are the gifts of historical art and of Socratic science. As we take refuge in the myth of truth, we must realize that

there is no truth in myth and no comfort in illusion except the lie of immortality *Adrenal Cortex* David C.

Anderson, Jeremy S. D. Winter, 2013-10-22 *Adrenal Cortex* presents a critical review of functional and structural zonation of the cortex. It discusses the regulation of adrenocortical function by control of growth and structure. It also addresses the adrenal cortex in the fetus and neonate. It demonstrates the cellular mechanisms involved in the acute and chronic actions of ACTH. Some of the topics covered in the book are the molecular structures of mineralocorticoid and glucocorticoid receptors, description of adrenarche and adrenal hirsutism, types of congenital enzymatic defects of the adrenal, aetiology and management of Cushing's syndrome and the relationship between adrenal cortex and hypertension. The description and characteristics of adrenocortical dysfunction are fully covered. The interactions between the adrenal cortex and medulla are extensively discussed. An in-depth analysis of the pharmacokinetics of natural and synthetic glucocorticoids is provided. A study of the regulation of normal steroidogenesis by adrenocortical structure is well presented. A chapter is devoted to possible role of vascular system in neural stimulations. The book can provide useful information to neurologists, doctors, students and researchers.

The Tiger Woods Phenomenon Donna J. Barbie, 2014-01-10 The essays in this book arise from the premise that Tiger Woods is not simply a phenomenal player but is also an Everyman who has displayed all too human foibles and weaknesses. The first half of the collection focuses on Tiger's superman game and how he has affected and been affected by the golfing world. Works on the sport that examine this supreme golfer cannot capture the full significance of the Tiger Woods phenomenon, however. Unlike many other talented athletes, Woods has transcended his sport, becoming a cultural icon. In the second half of the book, scholars examine Everyman Tiger, illustrating how his life reflects significant and often contentious issues within American culture and the world.

The Route And The Ruse - some paddle thoughts Eric Lovald, 2014-02-15 Thinking and writing in a form of brief explorations, we might take another look at habitually recited subjects from a different perspective of inquiry. Our collective human experience learns to combine insights of traditional wisdom with accurate observations on the moving present. Such is the intuitive work of re-balancing a personal outlook as well as an economy. Instead of insisting that knowledge be limited to any single belief system as the only relevant method of reasoning, one can develop appreciation for other ways of knowing. A better understanding of intrinsic strengths and sensitivities contributed by various cultures will open paths to achieving creative potential.

Filaments: Theological Profiles David Tracy, 2020-04-10 Collected essays spanning five decades imposing structure on a set of reflections from one of the most visionary and expansive living theologians. *Journal of the American Academy of Religion*. In the second volume of his two-volume collection of essays from the 1980s to 2018, renowned Catholic theologian

David Tracy gathers profiles of significant theologians philosophers and religious thinkers These essays he suggests can be thought of in terms of Walt Whitman s filaments which are thrown out from the speaking self to others ancient medieval modern and contemporary in order to be caught elsewhere Filaments arranges its subjects in rough chronological order from choices in ancient theology such as Augustine through the likes of William of St Thierry in the medieval period and Martin Luther and Michelangelo in the early modern and finally to modern and contemporary thinkers including Bernard Lonergan Paul Tillich Simone Weil Karl Rahner Reinhold Niebuhr and Iris Murdoch Taken together these essays can be understood as a partial initiation into a history of Christian theology defined by Tracy s key virtues of plurality and ambiguity Marked by surprising insights and connections Filaments brings the work of one of North America s most important religious thinkers once again to the forefront To read Filaments is to be educated and enriched by a remarkable breadth of inquiry and depth of analysis Tracy s passion for theological conversation is fueled by a desire for justice and peace but also by wonder at the unending love and creativity of God **Critical Theology**
