ICD-9-CM Inpatient Coding Reference and Study Guide Ba Kobayashi, 2010-07 If you need to have a strong understanding of how ICD 9 CM diagnosis and procedure codes are determined then you have chosen the right book ICD 9 CM Inpatient Coding Reference and Study Guide The author designed a book that goes beyond the fundamentals that gets into the details of ICD 9 CM diagnosis and procedure code assignment as would be experienced on the job This user friendly reference teaches coders how to handle many coding situations while also being comprehensive enough to teach someone with a basic knowledge of medical coding how to move to the next level of advanced inpatient coding Updated every year to reflect the annual ICD 9 CM coding changes the text enables HIM professionals to master the concepts of medical coding while also gaining critical knowledge to pass the CCS exam administered by AHIMA and the CPC H exam from the AAPC The book also serves as an excellent desk reference and resource for coders who need to refresh their ICD 9 CM coding skills Among the topics covered in Volume 1 are inpatient coding guidelines coding conventions coding tables and a drug reference However the heart of this manual is the body system analysis based on chapters 1 17 of the Tabular list in Volume I of the ICD 9 CM Official Coding Guidelines The chapters are categorized by body system such as respiratory digestive et al The chapters in this study guide follow the same sequence as the Official Coding Guidelines All chapters in addition to highlighting basic coding guidelines contain situation based coding tips and coding examples A quiz follows each chapter reinforcing concepts in a rigorous manner that applies directly to the professional coding environment The book also contains a selective discussion of invasive procedures that the coder will most likely encounter on the job and on the exam At the end of ICD 9 CM Inpatient Coding Reference and Study Guide are 15 case studies providing the reader with an opportunity to assess their ICD 9 CM coding skill set and speed at coding inpatient medical records Each record contains a face sheet history physical progress notes and answer sheet Some of the case studies contain ER reports consultations as well as operative and pathology reports The answer key at the end of this study guide contains a rationale for all code assignments 456 short answer questions 116 multiple choice questions 15 full medical record case studies Each question is highly relevant and reflects a coding situation most hospital based inpatient coders will face The text strives to ensure the reader understands every diagnosis and procedure discussed thorough discussion of symptoms standard treatment protocols and medications Coding examples and quizzes help clarify the information presented Linda Kobayashi BA RHIT CCS has been a coder and coding manager for almost 20 years Since 1998 Ms Kobayashi has owned and operated Codebusters Inc a nationwide coding consulting company Widely regarded as a medical coding and auditing expert she has conducted workshops on a variety of coding topics including CCS Exam preparation workshops Throughout her career the author has remained professionally active as an AHIMA member as well as a member of her state association CHIA California health Information Association Her formal training includes a teaching credential from California State University Los Angeles a B A

degree in English Literature from University of California Los Angeles an RHIT from AHIMA after completing the RHIT program at East Los Angeles College and a CCS certificate from AHIMA Extensive experience as a hands on coder auditor and educator and has given the author the expertise to help coders prepare for the professional coding environment

Cpt-4 Outpatient Coding Reference and Study Guide 2012 Rhit Kobayashi,2012-05 **Emergency Room Coding** Ba Kobayashi,2010-07 Emergency Room Coding will prepare you for the real world of coding in the emergency department setting The text provides the beginning coder with a solid foundation of how to code ER charts We focus on the diagnoses and procedures seen in the majority of community based hospitals The scenarios in this book are based on real life experiences and will provide the coder with situations s he will most likely encounter in the emergency room coding environment The study guide contains 32 emergency room records The case studies are representative of what is commonly treated in most emergency rooms Each case study contains an ER report and an answer worksheet The ER record serves as a good teaching tool for new coders because ER records do not require as much clinical background to code as inpatient records However some of the injury cases may present a challenge for new coders Also unlike most coding textbooks this study guide contains a complete ER report with a full explanation not just thumbnail sketches Therefore Emergency Room Coding is more realistic than the one to two line diagnostic statements encountered in most coding textbooks Finally the Answer Key for the case studies contains a rationale for all code assignments as well as directions for locating the correct diagnostic and procedure codes A multiple choice final review quiz is included at the end of this study guide as an opportunity for coders to test their coding skill set Emergency Room Coding is updated annually to reflect the annual coding changes Who is this book for Coders needing to develop ER coding skills Students Beginning coders trying to get their first job Anyone needing to understand ER code assignment Coding supervisors HIM Directors Auditors Compliance Officers Case Managers What s Inside 32 Case Studies Dictated ER Reports Answer Key Rationale Instructions on how to locate codes in ICD 9 Coding Book Final Exam Linda Kobayashi BA RHIT CCS has been a coder and coding manager for almost 20 years Since 1998 Ms Kobayashi has owned and operated Codebusters Inc a nationwide coding consulting company Widely regarded as a medical coding and auditing expert she has conducted workshops on a variety of coding topics including CCS Exam preparation workshops Throughout her career the author has remained professionally active as an AHIMA member as well as a member of her state association CHIA California health Information Association Her formal training includes a teaching credential from California State University Los Angeles a B A degree in English Literature from University of California Los Angeles an RHIT from AHIMA after completing the RHIT program at East Los Angeles College and a CCS certificate from AHIMA Extensive experience as a hands on coder auditor and educator and has given the author the expertise to help coders prepare for the professional coding environment **Medical Coding ICD-9 (Speedy Study Guides)** Speedy Publishing,2014-07-03 A medical coding ICD 9 book or software program contains detailed information
