Year 7 :

This booklet will help you Catherine Pass Your End of year 7 test xo.

Negative numbers:

Negative numbers are less than zero: -1, -2, -3, -4, -5, etc. A number line can be used to order negative and positive numbers. Zero, 0, is neither positive nor negative.

- The sum of two negative numbers is a negative number. For example, $-5 + (-1) = -6$
- The sum of a positive number and a negative number is the difference between two numbers. The sign of the bigger absolute value is placed before the result. For example, $-9 + 3 = -6$
- The product of a negative number and a positive number is a negative number. For example, $-9 \times 2 = -18$
- The product of two negative numbers is a positive number. For example, $-6 \times -3 = 18$
- While dividing negative numbers, if the signs are the same, the result is positive. For example, $-56 \div -7 = 8$
- While dividing negative numbers, if the signs are different, the result is negative. For example, $-32 \div 4 = -8$
- When we need to subtract a positive number from a positive number, we follow the subtraction rule given above. For example, $5 - (+6)$ becomes $5 + (-6) = 5 - 6 = -1$

Multiplying by 10,100,1000:

When we multiply by 10, 100 and a 1000 we shift all the digits to the left. One place left for 10, two places left for 100 and three places left for 1000. When we divide by 10, 100 and a 1000 we do the opposite and shift all the digits to the right instead.

Educational Binds of Poverty Ceri Brown, 2014-12-17 Shortlisted for BBC Radio 4's Thinking Allowed's second Ethnography Awards in partnership with the British Sociological Association

Educational Binds of Poverty tackles the assumptions made by many recent social and educational policy initiatives suggesting that the best way to improve educational prospects of children in poverty is through an increased emphasis upon a culture of control discipline regulation and accountability In this book Ceri Brown presents these assumptions against a review of the research literature and an original ethnographic longitudinal study into the lives of children in poverty in order to highlight the gap between policy discourses and the lived experiences of children themselves Through the theoretical concept of a set of binds against educational success the book explores four key areas that children in poverty have to navigate if they are to be successful in school These are material deprivation the cultural contexts of school home and the community friendship and social capital the effects of student mobility through atypical school changes In seeking to characterise and explain what life is like for young school children this book questions why policy makers have a radically different frame of reference in purporting to understand how their policies will change the behaviour of those living in poverty This leads onto a consideration of what lessons may be learned in order to contribute towards a more appropriate policy agenda that attends to the multiple binds that children in poverty have to negotiate

Developing Teaching Skills in the Primary School Jane Johnston, John Halocha, Mark Chater, 2007-10-16 Teaching is a complex process which involves the development and utilization of subject knowledge and teaching skills Containing reflective and practical skills this book supports such development focusing specifically on teaching skills considering what they are how they develop and how they differ between age and subject The book contains three sections Planning Doing and Reviewing which demonstrate effective classroom practice It uses examples of practitioners at different stages of their professional development to link theory and practice and includes discussions on contemporary issues in primary education such as Constructivist teaching and learning Thinking skills Creativity Teaching and learning styles Child centred learning The authors provide a critical analysis of the issues practice and problems faced by primary school teachers which is supported by reflective tasks throughout the book Emphasizing the child as a partner in the learning process and highlighting the importance of teaching for child centred learning the book ultimately develops and strengthens the teacher's skills Developing Teaching Skills in the Primary School provides essential guidance and support to trainee beginner and developing primary school teachers
