High-Impact Interview Questions Victoria Hoeve Meyer, 2005-09-26 Tell me about a time The words evoke a child s fairy tale innocence Yet when used by an interviewer they can help to determine the suitability of a job candidate by eliciting real world examples of behaviors and experience that can save you and your organization from making a bad hiring decision High Impact Interview Questions shows you how to use competency based behavioral interviewing methods that will uncover truly relevant and useful information By having applicants describe specific situations from their own experience during previous jobs rather than asking them hypothetical questions about what would you do if you ll be able to identify specific strengths

and weaknesses that will tell you if you've found the right person for the job. But developing such behavior-based questions can be time-consuming and difficult. High Impact Interview Questions saves you both time and effort. The book contains 701 questions you'll be able to use or adapt for your own needs matched to 62 in-demand skills such as customer focus, motivation, initiative, adaptability, teamwork, and more. It allows you to move immediately to the particular skills you want to measure and quickly find just the right tough but necessary questions to ask during an interview. Asking behavior-based questions is by far the best way to discover crucial details about job candidates. High Impact Interview Questions gives you the tools and guidance you need to gather this important information before you hire.

Break the Stigma: Autism Nichole E. Scheerer, April Hargreaves, Catalina Sau Man Ng, Matthew Daniel Lerner, 2024-12-17 While awareness of neurodiversity and specific forms of neurodivergence such as autism has increased over the last few years, autism stigma and prejudice against autistic people remains a critical issue that warrants further attention and investigation. The experience of stigma and prejudice such as discriminatory actions and attitudes towards autistic individuals on both a personal and public level can have many negative impacts across one's lifetime. These experiences can lead people on the autism spectrum and their families to avoid seeking help, which can delay

diagnosis and access to supportive services of not only autism itself but also co occurring physical and psychological health needs Prejudiced beliefs against autistic people may lead to many forms of discrimination including but not limited to medical education and employment discrimination These attitudes can be built into society at a systemic level and influence policies that govern access to supports and our communities Additionally autism stigma and prejudice against autistic people such as stereotypical portrayals of autistic people in media and the language we use to describe autistic people can be invalidating to a person s autistic identity and to autistic culture Further the impacts of stigma and prejudice can be internalized by autistic individuals which may not only have poor effects on their wellbeing but also increase the want and or need to mask or camouflage to pass as non autistic Masking or camouflaging can reduce a person s sense of belonging self esteem sense of self worth and close relationships all of which are associated with poor outcomes It can also lead to avoidance of opportunities such as connection with other autistic individuals that could increase quality of life This Research Topic aims to showcase evidence on why the stigma surrounding autism and the prejudice against autistic people are so detrimental It hopes to provide insights into research and interventions on how stigma and prejudice can be tackled as well as awareness understanding and acceptance raised in the hope that the research presented will translate to best practice applications in clinical public health policy and community settings We invite researchers to submit a range of articles including but not limited to original research articles reviews meta analyses opinions perspectives and case reports to provide new evidence on the following Harmful impacts of stigma and prejudice on autistic people Interventions on reducing stigma surrounding and prejudice against autistic people Health promotion in autism i e approaches that increase the mental and physical well being of autistic people Interventions targeted at increasing understanding of autism and neurodiversity as well as increasing acceptance and advocacy of as well as allyship with autistic people Examining intersectionality in autism stigma and or prejudice towards autistic people of diverse backgrounds
