Horizontal Learning in the High Middle Ages

Micol Long, Tjamke Snijders, Steven Vanderputten, 2025-10-01 The history of medieval learning has traditionally been studied as a vertical transmission of knowledge from a master to one or several disciples Horizontal Learning in the High Middle Ages Peer to Peer Knowledge Transfer in Religious Communities centres on the ways in which cohabiting peers learned and taught one another in a dialectical process how they acquired knowledge and skills but also how they developed concepts beliefs and adapted their behaviour to suit the group everything that could mold a person into an efficient member of the community This process of horizontal learning emerges as an important aspect of the medieval learning experience Progressing beyond the view that high medieval religious communities were closed homogeneous and fairly stable social groups the essays in this volume understand communities as the product of a continuous process of education and integration of new members The authors explore how group members learned from one another and what this teaches us about learning within the context of a high medieval community

The Church in the Early Middle Ages G.R. Evans, 2007-03-28 The creation of a new history of the Church at the beginning of the third millennium is an ambitious but necessary project Perhaps nowhere is it needed more than in re-describing the Church's development its life and its thinking in the period that followed the end of the early Church in antiquity The cultural social and political dominance of Christendom in what we now call the West from about 600 1300 made the Christian Church a shaper of the modern world in respects which go far beyond its religious influence Writing with her customary authority and with a magisterial grasp of the original sources G R Evans brings this formative era vividly to life both for the student of religious history and general reader She concentrates as much on the colourful human episodes of the time as on broader institutional and intellectual developments The result is a compelling and thoroughly modern

introduction to devotional and theological thought in the early Middle Ages as well as to ecclesiastical and pastoral life at large
