While these two companies get the lion's share of the publicity and a proportionately large number of device sales, both of them were actually very late to the party. Microsoft it turns out practically invented the smart phone. Back in the pre-iPhone days Windows was arguably the biggest player in the nascent PDA/Personal Digital Assistant market helping the savviest and most forward-thinking businessmen get their work done digitally. By contrast Apple was still trying to peddle the universally maligned Newton Message Pad. Whether you've been a loyal Windows Phone user for years or you're just now growing tired of the same old same old world of iOS or Android, this guide will help to make sure that you have all of the tools you need to make Windows Phone 8 your new favorite. We'll take you through Live Tiles SkyDrive Multitasking Kids Corner and a lot more everything you'll need to make the most of your Lumia 920 HTC 8X Samsung ATIV S or any other Windows Phone 8 device on the market.
