Quartet and Chorus Choir Joseph Holbrook, 2023-02-20 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost Jerusalem Pilgrimage, 1099-1185 John Wilkinson, Joyce Hill, 2017-05-15 In the Latin Kingdom of Jerusalem many pilgrims came to

Jerusalem The translations in this book are of seventeen western accounts of pilgrimage written between 1099 and 1185 and there are two additional accounts from eastern pilgrims Abbot Daniel from Russia and John Phocas from Antioch As a whole this collection shows the gradually developing way in which western Christians understood the Holy Places Some early pilgrims depended on authorities many of whom by 1099 were out of date They tried to deliver the truth about the Holy Places and to be reticent about their own reactions But the pilgrims who appear later in the collections made their own archaeological judgements and were more free about their own reactions Pilgrimage after 1099 was altered by the fact that by their victory over Jerusalem the Dome of the Rock fell into the Crusader s hands Otherwise the differences of practice between eastern and western pilgrims were slight Thus eastern pilgrims visited the Greek and western pilgrims the Latin monasteries Western pilgrims had a different idea of the location of Emmaus and before 1185 a western Way of the Cross was beginning to take shape These were slight differences and in general all Christian pilgrims whether from east or west visited the same Holy Places as they had during the preceding period Most of the works in this collection were translated into English a century ago by the Palestine Pilgrim s Text Society But these texts were produced separately as pamphlets and lacked a general introduction In this book therefore the texts are retranslated sometimes from more accurate texts In introducing the texts some valuable new evidence from archaeology has been used and enabled a new assessment of their dates
