THE COMPLETE COMMENTARY BY ŚAÑKARA ON THE YOGASŪTRA- S Trevor Leggett,2023-06-06 The text translated here is an historical find an unknown commentary on the Yoga Sutra s of Patanjali by Sankara the most eminent philosopher of ancient India Present Indications are that it is likely to be authentic which would date it about AD700 The many references to meditation in his accepted works have sometimes been regarded as concessions to accepted ideas of the time and not really his own views If he has chosen to write a commentary on Yoga meditation it must have been a central part of his own standpoint although he was opposed to some of the philosophical doctrines of the official Yoga school One would expect a tendency to modify these unacceptable doctrines if this text is really by Sankara This turns out to be the case T P Leggett Introduction for the general reader 1990 Leggett s translation of the Vivarana did not receive the attention it deserved when it first came out Some of the points that he raised are well worth consideration in the context of the authorship problem and his contribution to the debate should be recognised Dr Kengo Harimoto in his Foreword to the e book edition 2017 When enthusiasm flags read sutras 11 15 17 look around you and see how anxiety pain and death are rushing towards us like an express train Yoga is a way to escape them T P Leggett How to use this book for Yoga Practice 1990 Excerpts from The Complete Commentary by Sankara on the Yoga Sutra s by Trevor Leggett *Sankara on the Yoga Sutras* Trevor Leggett,2017-01-01 This is a complete English translation of a highly significant Sanskrit sub commentary vivarana purporting to be by Sankara on the Yoga Sutras of Patanjali The vivarana is written with great originality The long commentary on God completely jettisons the narrow sutra definition in favour of a supreme Creator as evidenced by many ingenious arguments on the lines of the present day cosmological anthropic principle The doctrine that the future already exists and that time is purely relative anticipate the Einstein era *Inaugurate Yourself* Parvat Singh,2014-06-18 The book

Inaugurate Yourself makes you aware of the fact that what can happen is only what is inside you in your own self already that time limit passes but time ever remains that by delegating ones responsibility one cannot become free from accountability that successful people do not just look for opportunities they create new opportunities that those who are successful are not angels after all they are human beings like you and me that success is not at the mercy of means that no work is special the way of doing it is special that the world does not make stars it is on a lookout for them that successful people go a step forward and pay attention to solutions that quality in itself is a source of publicity that the possibilities of being successful are always open that our desires get strength from our willpower that our fate is a reality your reality rather than a surprise that the present alone is our reality it is eternal it is its own reason

What do you really need in your life? Yagnesh Suthar, 2024-04-28 Every single day everyone on earth wakes up gets ready and goes to their jobs or businesses just to earn money Because we strongly believe that if I want to be happy I will need to make as much money as I can With the same thought process almost everyone on earth is living their life But I have seen many people dying at the age of 30 or sometimes below 30 The reasons for death could be anything but the fact is that I have seen many people dying at various ages unexpectedly This fact proves that there is no certainty of the time of death but death is certain Life has no guarantee that when you may die If there is no certainty of the time of death don't you think that we must find the purpose of our life Because even after earning huge amounts of money I have seen people who are still working to get more money see the billionaires of today And even after having everything at the time of death nothing they will take with them Then why were they born Are not they the body we see feel and spend time with If it is not so who are they or to be specific personally who are we I still remember when I was 16 I had a lot of questions about life For example Why are we born Why do we die Where do we go into our deep sleep If we are what we represent to the world why we do not experience the material world in deep sleep That means we are not what we think we are but in fact we have not recognized ourselves You know very well that everything happens for a reason That is what the universal principle Cause Effect is If our existence on this earth is for a limited period there must be a strong purpose to fulfill which of course we don't know or we don't want to know If we believe that we are the one who runs the world for example you may be thinking that your family is surviving because of you your business is run because of you your presence is a must in your groups etc trust me we are not the

controller even though we strongly and falsely believe it We cannot control our own breath for a single hour how can we control the world surrounding us We cannot We are a medium we are sent on earth for a specific purpose We have to fulfill our duties to get rid of this birth death game that we have been a part of since infinite times But why Because even if you think that I am going to have everything in my life one day you will not have Because your life is totally based on your karma And you definitely don't know your karma of previous lives And if you want to know them you will need to adopt certain lifestyles which also you don't want to adopt So how can you know your mistakes Hence instead of objecting to the universal laws we should accept whatever nature has to give us we just need to change our perception of the experience and we will have different abilities But how will you change the thought process How will you change the perceptions What would be your answer if someone asked you What do you really need in your life The majority of people would reply wealth health happiness peace fame and love But almost all of them do not even know the right way and right source of all these goals Have you ever observed your life why do you have problems Even after taking good actions why do you have to suffer from pain Even though you act according to righteousness however you face struggles in life why Were you born to work your entire life If you are going to die one day leaving everything behind why are you running behind accumulating so much wealth If you were born in this world was that because of your wish If you are not able to control your breath for a single hour if you are not getting things as per your expectations or planning that simply means you are not the controller of your life Then why do you believe that you are the doer Why do you have Ego Why do you expect anything from anyone If you delve deeper into the questioning you will have only three questions Who am I who is the source of existence Why am I here purpose of life How to fulfill that purpose To get liberation But apart from these all every one of us is trapped in the material world in the materialistic achievements which are going to vanish along with our death Only we take with us is our karma our knowledge our abilities etc However when we are born into a particular family we also get some qualities based on our parents because we have an opportunity to be born by their union Hence we get some of the qualities from them too And as we grow we adapt to various conduct of life various types of foods and so on Everything affects us in so many more ways Just like eating an onion provides you with anger likewise different kinds of food affect our existence differently But because we have never been told about the reality we are getting trapped day by day in materialistic achievements Even without our notice we commit many crimes sins and become eligible to pay them anyhow Have you ever thought about why only humans can think and change their lives why other animals cannot do as we can Because their birth is meant for indulgence surviving due to past karma and service Their consciousness is limited to those aspects only But our consciousness is limited to many more aspects We human lives are the bridge through which consciousness can reach other dimensions of existence Human life is so precious that even celestial beings also looking to take birth in human lives To be born as a human is very much fortunate because from the human form alone one can become free free from all misery and sufferings of life free from all the

bondage of life after life Hence the most important purpose one can ever live for is only one liberation liberation from this game called life S B 11 9 29 Meaning After many births and deaths one achieves the rare human form of life which although temporary allows one to attain the highest perfection Thus a wise person should quickly endeavor for the ultimate goal before another death occurs After all sense gratification is available even in the most abominable species of life whereas Krsna consciousness realization of supreme consciousness is possible only for a human being However you will not understand or show interest in learning those aspects because of your lifestyle and karma But if you are reading these words trust me your own eagerness intuition and the spiritual aspect of yourself have directed you to select this book for reading it Because this book is the bridge or door to get the knowledge that has been evaluated many times Many kings renounced their kingdoms and all their wealth or prosperity just to find the answers to those three questions Many outsiders attacked India a few centuries ago just to get this knowledge because of that knowledge India was considered a Golden bird So just imagine how precious this knowledge would be Even after stealing many things from India they did not implement that knowledge into practical life If they could have implemented it the entire earth would be like a family But humans are humans Even after getting human life after 84 lakh yonis they still want to get trapped in indulgence If you can get permanent satisfaction and happiness by having sex by getting trapped in indulgence and by fulfilling your desires then how do you need to do them again and again And if there is a need to do it again and again trust me it is nothing but a mirage Also this mirage snatches the living force from you and gives you death as a gift Hence there is no permanent happiness or satisfaction in materialistic achievements it only comes after realizing the self All the questions of your life will vanish after realizing the self You will get to know everything you will ever wish for The entire world runs based on hope and faith If you are doing a job or business you have some expectations that I will get something after finishing this work it could be money promotion appreciation or anything And if I finish this work I will be happy or satisfied But as you finish one of your tasks a few more are raised just after that This task fulfilling cycle repeats endlessly unless you realize that this all exists temporarily The day when you will realize the fact that with each of your breaths you live with death as well will be the time when you will have a complete understanding of life and you will look for the answers to those three questions Because that is what the goal is From birth I have been an experiencer of my life thinking of myself as a doer but one day I realized the fact that we are not doers we are mediums and that day after I have been an observer of my life In this way I have got so many answers to my questions which the majority of people do not know And if some people know them they don't want to implement the knowledge in their life at this very moment because they are looking for a specific time to implement such knowledge Hence even though they have known it they are suffering in life And those who have completely understood this knowledge are already immersed or engrossed in attaining the truth That is the reason why people like me and you are not getting the right source or guidance of such knowledge While I am also journeying to attain this truth I have compiled it in this book And I

want to share it with you so that you can also adopt it and attain the truth In this book I have answered many questions as simply as I can so that even a 15 year old teenager can understand these aspects of life If any of the government wants to make their country the most powerful in all aspects of existence this knowledge must be taught from school time This knowledge changes the perception of humans in a way that will only bring permanent happiness satisfaction prosperity unconditional love and whatnot The person who understands all the intentions of this book and implements it in his life will definitely become the most knowledgeable and powerful person on earth Your definition of most knowledgeable and most powerful will be different from mine because for now you have not known the intentions of this book You spend nearly GBP 10 000 a year to get a degree that can give you a job some money to survive and happiness Now question yourself before a few centuries ago when there were no universities were people not surviving Of course they were surviving But our minds have been manipulated so that we are already affected by millions of desires For example you might want to get the costliest smartphone a great looking car the most comfortable lifestyle and whatnot Also they those who are affected by seven enemies have been using many dark secret psychological tricks manipulation techniques and marketing secrets to manipulate your mind and beliefs in any way possible And you the victim of such manipulations are so strongly affected by this that you do not even realize what is your identity what is your goal in life what you have to do here on this earth and why are you living in miseries To be honest not for me but for yourself just for one day try to observe your daily routine as a third person observation You will realize that all your actions are just for earning money fulfilling your desires taking revenge making your so called loved ones happy and whatnot All your mental and physical energy is so much involved and engrossed in thinking about fulfilling these many tasks That is the reason why you get tired at the end of the day But when you return to sleep you get refreshed Why What is there in the sleep that makes you fresh There must be something in the sleep that always makes you feel fresh don t you think so But science has no satisfactory answers to such questions Though I am a student of science and I am a pharmacist myself how and for what reason I might believe in such things The reason is I strongly believe in self experience and observation through intellect I believe in documented evidence to a certain limit Otherwise I only believe in something if from all the aspects of intellectual reasoning I find any satisfactory answer Beyond intellectual reasoning there is a great parameter that has been only understood by sages that is Faith Who has understood love has understood everything You go to university and spend almost 10 000 on your course however you are not happy and satisfied Even after marrying your loved one you are getting frustrated at some moments in life Even after eating your favorite dishes you become ill Even after indulging in something you again get the desire for indulgence and your thirst becomes stronger So all your expenditure of time and money is not worth enough to give you all that you really need But the fact is that you do not even know What do you really need That is why I have written this book for you to exactly let you know what you really need in your life Also this book explores many of the concepts that should have been taught in schools but

have never been taught If you understand the intentions of my words and if you follow what is said in the book then all the money you have invested till today to get everything you wanted in your life will be of no worth than the price of this book What do you really need in your life The words of this book are Nectar Words and you will realize this after reading understanding and implementing the advice in life from this book **Opening Our Spiritual Eyes** Qala Sri'ama
