

**Meet the 22-year-old with a big idea for cleaning up the Great Pacific Garbage Patch.**

One young ocean lover is confronting this challenge head on. At just 22, Boyan Slat has created a barrier system that's designed to collect and remove trash from the Pacific Ocean without disrupting marine life. A Dutch inventor and entrepreneur, Slat is the founder and CEO of The Ocean Cleanup, a foundation dedicated to developing advanced technologies to rid the oceans of pollution. When he was 16, Slat came up with the ambitious idea to clean up the oceans while he was diving in Greece and came across more plastic bags than fish. In the years since that dive he's dedicated countless hours to the project. "I really think the only way to show that it can be done is to go out there and try it," he says.

 • An intervention program can help educate people about why plastic waste is such a big problem. ✓✓  
 • If people are educated about WHY they should lessen their plastic footprint, it will be easier to convince them to actually do something about it. L3
