Bauer, 2015-03-17 This book breaks down the sometimes overwhelming and difficult task of creating a successful grant-winning proposal into a series of clear and definable steps that lead to grant success. The implementation of these proactive grant steps results in government, foundation, and corporate grants success. Whether you are with a non-profit organization, a school district, or an institution of higher education, this step-by-step process will demystify the grants process and help you become a confident and knowledgeable grantseeker. Researching the grantor, reviewing previously funded proposals, and making pre-proposal contact with the funding source are just a few of the proactive steps that will help to assure you that what you propose is right for the grantor and that the grantor should therefore select you to fund. The exhibits, worksheets in *The How To Grants Manual* further support this successful system. Revisions to grant-seeking strategies have caused the author, working with grantors and advisory groups, to retool the manual's worksheets and communications templates. These extremely useful supplementary materials are available to students and instructors. Contact textbooksrowman.com for details. If your organization or institution wants to increase your success in attracting grants, this book is for you. From operating grants to technology to research, this book will help you outline your plan for success. Death Star Imperial DS-1 Orbital Battle Station Owner's Technical Manual Ryder

New Eden Ruth Fox, 2023-08-29. The fight for the future of the whales has just begun. As Seiiki, now escorted by a military contingent from Earth United, draws ever closer to New Eden, Kim Teng must learn to split her role of Caretaker with another, navigate a new relationship with Wren, and deal with the suffocating guilt of having been part of the Crusaders all while maintaining her cover as social media star Hannah Monksman. What could possibly go wrong? With tensions rising back on Earth between the Adherents, a sect devoted to keeping humanity from colonizing space, and Earth United, it is even more important for Seiiki and the whales to reach New Eden quickly and safely. But as the contingent comes out of hyperspace, an unknown computer error sends them off course into an asteroid belt. The military escort ships land badly damaged on New Eden, and the whales are trapped inside a crippled Seiiki, several kilometers from the planned landing site. And it seems their new home planet is not the peaceful paradise they expected. Strange creatures howl in the night; probes that were sent to populate the oceans with fish are found disabled; and ancient ruins in the jungle nearby suggest the Ark Project wasn't the first landing party on New Eden. When people begin disappearing from their basecamp, Kim and her friends soon realize that while someone didn't want them to ever arrive at New Eden, someone or something else wanted to make sure they did.
