Enders Shadow Teacher Guide:

The Ender's Game Series: The Unofficial Reference BookCaps Study Guides Staff, 2012 Ender's Game is one of the greatest science fiction series of all time. But it spans across many planets and features dozens of major characters and plots. In short, it gets complex. The perfect companion to Orson Scott Card's Ender's Game Series, this study guide contains a chapter-by-chapter analysis of the book, a summary of the plot, and a guide to major characters and themes. This guide covers the Ender's Game Speaker for the Dead, Xenocide, and Children of the Mind. BookCap™ Study Guides do not contain text from the actual book and are not meant to be purchased as alternatives to reading the book. We all need refreshers every now and then. Whether you are a student trying to cram for that big final or someone just trying to understand a book more, BookCaps can help. We are a small but growing company and are adding titles every month.

Ender's Shadow Orson Scott Card, 2002-05-19 Orson Scott Card brings us back to the very beginning of his brilliant Ender Quartet with the novel that begins The Shadow Series and allows us to reenter Ender's world anew. With all the power of his original creation, Ender's Shadow is Card's parallel volume to Ender's Game, a book that expands and complements the first, enhancing its power, illuminating its events, and its powerful conclusion. The human race is at war with the Buggers, an insect-like alien race. The first battles went badly, and now as Earth prepares to defend itself against the imminent threat of total destruction at the hands of an inscrutable alien enemy, all focus is on the development and training of military geniuses who can fight such a war and win. The long distances of interstellar space have given hope to the defenders of Earth; they have time to train these future commanders up from childhood, forging them into an irresistible force in the high orbital facility called the Battle School. Andrew Ender Wiggin was not the only child in the Battle School; he was just the best of the best. In this new book, Card tells the story of another of those precocious generals, the one they called Bean, the one who became Ender's right hand, part of his team in the final battle against the Buggers. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else's. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang and then to help make that gang a template for success for all the others. He civilized them and lived to grow older. Bean's desperate struggle to live and his success brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit to the Battle School. And there he met Ender.

THE ENDER UNIVERSE Ender series: Ender's Game, Ender in Exile, Speaker for the Dead, Xenocide, Children of the Mind, Ender's Shadow series: Ender's Shadow, Shadow of the Hegemon, Shadow Puppets, Shadow of the Giant, Shadows in Flight, Children of the Fleet, The First Formic War with Aaron Johnston, Earth Unaware, Earth Afire, Earth Awakens, The Second Formic War with Aaron Johnston, The Swarm, The Hive. Ender novellas: A War of Gifts, First Meetings. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Zimmerly,2019-04-09 Literary sidekicks like Dr Watson and Robin the Boy Wonder have not been the singular subject of a significant critical study until now Using young adult literature YA to study the sidekick reveals new and exciting ways to understand these kinds of characters and this kind of literature YA has embraced the sidekick recognizing the way the character reflects the importance of growth and finding one's place in the world The nature of many YA texts allows sidekicks to grow beyond literary or historical origins This includes letting sidekicks evolve over the course of multiple texts using parallel novels to add complexity to a sidekick's characterization and telling a story from the sidekick's perspective paradoxically making the sidekick the hero A singularly focused and prolonged study helps to establish sidekick scholarship as a burgeoning field in and of itself **Ender's Game Teacher Guide** Novel Units, Incorporated,2004 **Ender's Game**

Something about the Author Anne Commire,1971 **Literature for Today's Young Adults** Kenneth L. Donelson,Alleen Pace Nilsen,1997 With 140 fewer pages than the fourth edition the fifth obviously has been tightened it s partly in the format with narrower margins and less white space Otherwise some text has been rephrased or rearranged and topics for example adolescent psychology given shorter shrift Coverage of Holocaust literature has been expanded and discussion of problem novels improved Sports books have been dumped in with humor movies and other stuff including humorous poetry which it seems the authors feel is the only kind teens read for pleasure other types of poetry as well as short stories and drama are relegated to the English classroom coverage of which has been enlarged The chapter on sf and fantasy is good on historical aspects but weak on today s writers A short list of Internet listserves and Web sites has been incorporated as part of using YA literature in the library Once again updating of appendixes seems spotty Nevertheless this is useful as a resource for youth librarians and a tool for teaching YA literature Sally Estes **Five Years at Fannie Lou** Michael Cooney,
