and reorganized to help prepare students for today's clinical challenges accompanied by case studies and interactive features that reinforce understanding and instill the clinical decision making skills essential to successful practice *Essentials of Assessing Infants, Toddlers, and Preschoolers* Brittany A. Dale, Joseph R. Engler, Vincent C. Alfonso, 2025-03-05 A practitioner oriented guide to the most important assessments and evaluation techniques for children ages 0-5. Many assessment professionals leave their graduate education programs without any formal training in assessing infants and young children. Although there are assessment textbooks covering subsets of this age range, *Essentials of Assessing Infants, Toddlers, and Preschoolers* is uniquely designed for busy practitioners and it covers the full range of assessments for 0-5 years old. With medical advances and new treatments, there is a higher prevalence of children with complex medical and psychological needs. Additionally, changing educational policies often affect assessment practices. Assessment professionals must have current information to effectively assess young children and assist in planning interventions. As with all volumes in the *Essentials of Psychological Assessment* series, this book consists of concise chapters featuring callout boxes highlighting key concepts, easy to learn bullet points, and extensive illustrative material, as well as test questions that help you gauge and reinforce your grasp of the information covered. Understand the issues unique to assessing children aged 0-5 years. Get expert advice on assessing children with extremely early preterm birth, genetic conditions, and other unique situations. Consider the future directions in the assessment of infants, toddlers, and preschoolers. Quickly and easily locate pertinent information and access resources and tools to aid in performing professional duties. This straightforward manual includes thorough coverage on how assessment results guide effective interventions. *Essentials of Assessing Infants, Toddlers, and Preschoolers* is a valuable addition to the libraries of developmental practitioners, school and clinical psychologists, pediatricians, speech language pathologists, and others responsible for the assessment of very young children.
