Maricopa County Sheriff's Office History and Pictorial, 2005 *Police and State Crime in the Americas* Daniel Gascón, Sebastián Sclofsky, Xavier Perez, Jhon Sanabria, Analicia Mejia Mesinas, 2024-02-24 This book advances a much needed postcolonial framework in analyzing the police It seeks to deepen our understanding of the police role in maintaining Western global domination throughout the American region despite the violent end of colonial rule Building on Cheigny's 1995 classic study this book seeks to draw renewed attention to the role of police in perpetrating state violence and serving as the tip of the spear of state power It seeks to understand the construction of marginality and the multiple and intersecting structures of colonial domination before shining a light directly on the crimes of the state in an attempt to hold criminal state organizations to account It draws on interdisciplinary perspectives and methodologies that center marginalized and colonized experiences and allows for the development of countercolonial knowledge It speaks to academics and students in criminology sociology political science and law as well as to ethnic and area studies programs such as Chicano Latino and Latin American Studies and to police administrators and policymakers

Outside Justice David C Brotherton, Daniel L Stageman, Shirley P Leyro, 2013-05-27 Outside Justice Undocumented Immigrants and the Criminal Justice System fills a clear gap in the scholarly literature on the increasing conceptual overlap between popular perceptions of immigration and criminality and its reflection in the increasing practical overlap between criminal justice and immigration control systems Drawing on data from the United States and other nations scholars from a range of academic disciplines examine the impact of these trends on the institutions communities and individuals that are experiencing them Individual entries address criminal victimization and labor exploitation of undocumented immigrant communities the effects of parental detention and deportation on children remaining in destination countries relations between immigrant communities and law enforcement agencies and the responses of law enforcement agencies to drastic changes in immigration policy among other topics Taken as a whole these essays chart the ongoing progression of social forces that will determine the well being of Western democracies throughout the 21st century In doing so they set forth a research agenda for reexamining and challenging the goals of converging criminal justice and immigration control policy and raise a number of carefully considered ethical alternatives to the contemporary policy status quo Contemporary immigration is the focus of highly charged rhetoric and policy innovation both attempting to define the movement of people across national borders as fundamentally an issue of criminal justice This realignment has had profound effects on criminal justice policy and practice and immigration control alike and raises far reaching implications for social inclusion labor economies community cohesion and a host of other areas of immediate interest to social science researchers and practitioners
