Gross William C. Forbes III,2024-01-11 About the Book Learning Gross presents the core concepts of how to succeed as a student or professor in an essential Gross Anatomy class Dr Forbes goes where no one else has gone to the inner workings of an excellent Human Anatomy course and describes in detail the rare experience of a semester spent exploring the human body Learning Gross is a valuable tool for succeeding in a Gross Anatomy class In felicitous prose it is a meditation on what it takes to present and receive an excellent Anatomy course deftly assembled and stuffed with facts and information Those concepts are presented with clarity in a comprehensive format for easy reference by the reader If you are a professor this book can transform the way you present your class If you re a student how will you approach the sheer volume of information presented in a Gross Anatomy course This book will help you retain the content of the course throughout your matriculation and into your clinical practice The book discusses learning the physical anatomy Then with an imaginative wit it presents between each two chapters a little of the metaphysical embodied in a trenchant conversation with one of the donor bodies in his laboratory Unlike other books about cadaver courses written by laypeople attending a Gross Anatomy course this book is written by an academic who has spent his life in that milieu It is a special perspective one that equips the writer to present you with practical authentic advice on what it takes to succeed Excerpt from the Book For most people what s inside the body is a great mystery Haven t you found that to be so Most people entertain vague ideas about where organs are located what they do and how they work But for those of us who study human gross anatomy it s different For those of us who have the splendid opportunity to explore the body for ourselves to actually see for ourselves the beauty and grace inside the human body and to learn its secrets in order to better serve our patients it s a compelling once in a lifetime revelation Ours is a uniquely privileged study and that study would be impossible except for the unrequitable thoughtfulness of people we ve never met who had the charity to give to us what was their most intimate home for seventy eighty ninety years We begin that study as strangers strangers to the human body and strangers to each other and we invariably finish as good friends to both I m happy you haven t missed this rare opportunity And someday when you re really old twenty thirty forty years after you graduate when you ve achieved your goals and you are a practicing healthcare professional you will have occasion to get a whiff of formaldehyde and that will cause you to remember You ll remember the Anatomy Lab the names of your lab partners and instructors and your donor body And you ll reflect on what is called the music of the Anatomy Laboratory the sound of learning the sound of discovery the sound of students teaching other students all throughout the room And you will recall that lovely aroma in the lab And here s the thing when you remember you will smile I promise you will American Book Publishing Record ,2003 Two Sides To Every Story Wanda F. Kenty,2022-09-27 In the beginning God created the heavens and the earth because there was a war in heaven At the end of that war long before this new Adamic beginning Almighty Father God gave Archangel Michael charge of leading the battle in casting Satan the enemy of God out of heaven In the archangel s victory Satan was cast down to this God created earth In God s full knowledge of the pure evil that Satan

possessed He created man the first one Adam in His own image Each one of us that proceeded after that creation up to this very day are created as a person or piece of the Almighty God endowed with the inheritance of who and what He is God created man to be soldiers in His army The purpose for our creation is to battle the evils that Satan would use to try to destroy us and this earth in his way of attacking God In God s creation of man we are keepers of His footstool because Almighty God is on His throne in heaven Satan having had the favor of God before he grew insanely jealous of Him knew that not to be a good idea So the very first man God created Satan attacked and was successful Satan knew that if he could insert his seed into the very first of God s creation he would have a good chance of destroying all human beings that man would create Psalm 139 14 says I praise you for I am fearfully and wonderfully made In my opinion there has never been a statement that has been proven more true With Satan hiding behind the scene he anxiously awaits man to explore his God given creativity until man knows no limit which ends us where we are today Limitless possibilities Constructive and destructive Everything man creates is accompanied by an operating manual In God s proof of all His creation He accompanied us with one also It s called the Holy Bible which is not the story that we are able or want to create simply because we can but it is His story that we are to follow Like any other manual of instruction created by man that is unused or not read you will undoubtedly end up with a lot of extra screws and pieces that do not fit Give the Lord the mangled pieces of the life you have tried to put together It s called surrender It s the only way to true health wealth and spiritual freedom
