International Peace Conferences Bertrand G. Ramcharan, 2015-01-27 This book has emerged out of the author's experience as Director of an innovative peacemaking peacekeeping and humanitarian initiative the International Conference on the Former Yugoslavia between 1992 and 1996 What was striking about this conference was the experiment of two full time Co Chairmen one from the United Nations and one from the European Union who laboured tirelessly for peace in different parts of the former Yugoslavia for three and a half years The strategies and organization of the conference had to be pieced together from the start by the Co Chairmen and their colleagues only in retrospect could the question whether there might have been experiences of international peace conferences that might have been useful at the beginning of this process be reviewed This research is contained in Part One of this book which offers a review of the role of international peace conferences in history Part Two contains a case study of the strategies and experiences of the International Conference on the Former Yugoslavia

Secession in International Law with a Special Reference to the Post-Soviet Space Júlia Miklasová, 2024-08-19 The open access publication of this book has been published with the support of the Swiss National Science Foundation International law is increasing in relevance to the topic of secession This book demonstrates that if a secessionist entity's effectiveness is achieved in violation of peremptory norms the emergence of statehood is precluded thereby challenging a classical view of secession as purely factual and meta legal Dr Júlia Miklasová coins the term illegal secessionist entity demonstrates the pervasive effects of the original illegality on the subsequent relations of such entities purported diplomatic treaty economic relations acts and laws and outlines the overlapping regimes of the law of occupation human rights law and duty of non recognition Post Soviet secessionist entities result from an illegal use of force They are thus prohibited from becoming States and further consequences of their illegality apply [Yearbook of International Humanitarian Law, Volume 20, 2017](#) Terry D. Gill, Tim McCormack, Robin Geiß, Heike Krieger, Christophe

Paulussen, 2018-12-20 The main theme of this volume of the Yearbook of International Humanitarian Law is the development and interpretation of international humanitarian law IHL It is elaborated upon in several chapters that examine the role of non state armed groups in the development and interpretation of IHL the impact of international criminal law on the development of IHL the notion of external non international armed conflicts and the regulation of prolonged occupation under international law The second theme of this volume is dedicated to targeting in armed conflicts Specific topics include precautions in attack in urban and siege warfare the targeting of the Islamic State's religious personnel in Iraq and Syria and the targeting of illicit crops through aerial spraying in Colombia Besides the chapters that address both themes this volume also contains a Year in Review describing the most important events and legal developments that took place in 2017 The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict It provides a truly international forum for high quality peer reviewed academic articles focusing on this

Accountability for Violations of International Humanitarian Law Jadranka Petrovic, 2015-06-26 International criminal adjudication together with the prosecution and appropriate punishment of offenders at a national level remains the most effective means of enforcing International Humanitarian Law This book considers the various issues emanating from present day breaches of norms of International Humanitarian Law IHL and the question of how impunity for such breaches can be tackled Honouring the work of Timothy McCormack Professor of International Law at the University of Melbourne and a world renowned expert on IHL and International Criminal Law contributors of the book explore the interplay between the rules governing accountability for violations of IHL and other areas of law that impact the prosecution of war crimes including international criminal law human rights law arms control law constitutional law and national criminal law In providing a contemporary consideration of the various issues emerging from present day breaches of norms of IHL especially in light of growing interest in fragmentation and normative pluralism this book will be of great use and interest to students and researchers in public international law international law and conflict studies *Legalist Empire* Benjamin Allen

Coates, 2016-06-03 America's empire expanded dramatically following the Spanish American War of 1898 The United States quickly annexed the Philippines and Puerto Rico seized control over Cuba and the Panama Canal Zone and extended political and financial power throughout Latin America This age of empire Benjamin Allen Coates argues was also an age of international law Justifying America's empire with the language of law and civilization international lawyers serving simultaneously as academics leaders of the legal profession corporate attorneys and high ranking government officials became central to the conceptualization conduct and rationalization of US foreign policy Just as international law shaped empire so too did empire shape international law *Legalist Empire* shows how the American Society of International Law was animated by the same notions of civilization that justified the expansion of empire overseas Using the private papers and

published writings of such figures as Elihu Root John Bassett Moore and James Brown Scott Coates shows how the newly created international law profession merged European influences with trends in American jurisprudence while appealing to elite notions of order reform and American identity By projecting an image of the United States as a unique force for law and civilization legalists reconciled American exceptionalism empire and an international rule of law Under their influence the nation became the world s leading advocate for the creation of an international court Although the legalist vision of world peace through voluntary adjudication foundered in the interwar period international lawyers through their ideas and their presence in halls of power continue to infuse vital debates about America s global role Crafting the International Order Marcus M. Payk, Kim Christian Priemel, 2021 In the past few decades the understanding of the relationship between nations has undergone a radical transformation The role of the traditional nation state is diminishing along with many of the traditional vocabularies which were once used to describe what has been called ever since Jeremy Bentham coined the phrase in 1780 international law The older boundaries between states are growing ever more fluid new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory It is the editors conviction that the best way to achieve this is by bridging the traditional divide between international legal theory intellectual history and legal and political history The aim of the series therefore is to provide a forum for historical studies from classical antiquity to the twenty first century that are theoretically informed and for philosophical work that is historically conscious in the hope that a new vision of the rapidly evolving international world its past and its possible future may emerge Book jacket **Protection of Civilians and Individual Accountability** Lenneke Sprik, 2019-08-13 This book explores the question of whether peacekeeping commanders can be held accountable for a failure to protect the civilian population in the mission area This requires an assessment of whether peacekeeping commanders have an obligation to act against such serious crimes being committed under domestic and international law The work uses the cases of the Dutch and Belgian peacekeeping commanders in Srebrenica and Kigali as examples but it also places the analysis into the context of contemporary peacekeeping operations It unfolds two main arguments First it provides a critical note to the contextual interpretation given to international law in relation to peacekeeping It is argued that establishing a specific paradigm for peacekeeping operations with clear rules of interpretation and benchmark criteria would benefit peacekeeping and international law by making the contextual interpretation of international law redundant Second it is held that alternative options to the existing forms of criminal responsibility for military commanders should be considered possibly focusing more clearly on failing to fulfil a norm of protection that is specific to peacekeeping and distinct from protective obligations under international human rights law and international humanitarian law *Human Rights in Bosnia and Herzegovina after*

Dayton Wolfgang Benedek, Heike Alefsen, Michael O'Flaherty, Ermin Sarajlija, 2023-11-27 This book examines the state of human rights in Bosnia and Herzegovina following the Dayton Peace Agreement Edited by Wolfgang Benedek it compiles speeches and papers from the inaugural conference of the Human Rights Centre at the University of Sarajevo held in December 1996 The work addresses the challenges and opportunities in implementing international human rights standards in Bosnia highlighting the importance of effective monitoring and enforcement mechanisms It draws insights from international and local experts NGOs and organizations active in the region discussing the Dayton Constitution and its implications for human rights The book aims to promote understanding and dissemination of human rights knowledge serving both scholars and practitioners interested in post conflict human rights issues *Conference Diplomacy* Johan Kaufmann, 2016-07-27 How can a delegation to a conference get its initiative adopted or another delegation's proposal rejected How is a conference delegation composed What is a permanent mission What effect can an inefficient conference president have In which way can secretariats of international organizations influence the results of international conferences The answers to these questions can be found in Johan Kaufmann's path breaking *Conference Diplomacy* originally published in 1968 *Conference Diplomacy* will be useful to junior and senior diplomats and to international civil servants It has found and will increasingly find a place in courses on international relations on negotiations techniques and in teaching for the diplomatic career *Africa and the Responsibility to Protect* Dan Kuwali, Frans Viljoen, 2013-11-26 Situations of serious or massive violations of human rights are no longer purely of domestic concern and sovereignty can no longer be an absolute shield for repressive governments in such circumstances Based on this realization the international community has recognized a responsibility to protect individuals in states where their governments are unable or unwilling to provide protection against the most serious violations However so far only one intergovernmental organization the African Union AU has explicitly made the right to intervene in a Member State part of its foundational text in Article 4 h of its Constitutive Act Although there have been cases of Article 4 h type interventions in Africa the AU Assembly has not yet invoked Article 4 h explicitly This book brings together experts in the field to explore the potential application of Article 4 h and the complexities that may explain its non invocation so far Although Article 4 h is noble in purpose its implementation faces several legal and policy challenges given that the use of force penetrates the principles of state sovereignty and non intervention the very cornerstones upon which the AU is founded This book considers these issues as well as the need to reconcile Article 4 h in so far as it allows the AU to exercise military intervention to protect populations at risk of mass atrocities with the provisions of the Charter of the United Nations Drawing from the insights of law political science diplomacy and military strategy the book offers a unique combination of multi disciplinary expertise that harnesses the views of a diverse group of authors focused on the legal policy and practical insights on the implementation of Article 4 h and the responsibility to protect in Africa in order to provide concrete recommendations on how to end mass atrocities on the continent **Latin America and the**

International Court of Justice Paula Wojcikiewicz Almeida, Jean-Marc Sorel, 2016-11-25 This book aims to evaluate the contribution of Latin America to the development of international law at the International Court of Justice ICJ This contemporary approach to international adjudication includes the historical contribution of the region to the development of international law through the emergence of international jurisdictions as well as the procedural and material contribution of the cases submitted by or against Latin American states to the ICJ to the development of international law The project then conceives international jurisdictions from a multifunctional perspective which encompasses the Court as both an instrument of the parties and an organ of a value based international community This shows how Latin American states have become increasingly committed to the peaceful settlement of disputes and to the promotion of international law through adjudication It culminates with an expansion of the traditional understanding of the function of the ICJ by Latin American states including an analysis of existing challenges in the region The book will be of interest to all those interested in international dispute resolution including academic libraries the judiciary practitioners in international law government institutions academics and students alike The Triggering Procedure of the International Criminal Court Héctor Olásolo, 2005-10-01 The Rome Statute unlike the statutes of the International Criminal Tribunals for the former Yugoslavia and for Rwanda creates a permanent court whose dormant jurisdiction covers the territory and includes the nationals of States Parties and is universal in cases where the Security Council makes a referral Besides unlike the ad hoc tribunals which have jurisdiction over specific crisis situations whose personal territorial and temporal parameters have been defined in their respective statutes by the UN Security Council in the case of the ICC it is not possible to determine a priori in which situations the ICC will be involved As a result the most relevant activity of the Court is the determination of those situations regarding which the dormant jurisdiction of the Court will be triggered The book *The Triggering Procedure of the International Criminal Court* constitutes the first comprehensive analysis of the proceedings that prior to any criminal investigation aim to make such a fundamental determination **United Nations Secretaries General** Peter J. Kelly, 1999 The United Nations has fought an uphill battle since its formation in 1945 One General Secretary after another has fought unruly members the tendency of several countries to ignore UN resolutions and continuous budget difficulties caused in part by the refusal of deadbeat countries to pay their dues In spite of these problems the UN has numerous successes to its credit If the world is not to go up in flames the United Nations will play an even larger role in the future Before this can happen however the world will require leaders with more foresight and courage than those around now The Secretaries General of the UN have laboured sometimes in obscurity to accomplish their missions This book gathers together citations including abstracts from the journal literature books government reports and edited collections *The Proceedings of the Hague Peace Conferences: Plenary meetings of the conference* ,1920
