Moving Into Nwu Resisence 2015:

EXPLOITED, UNDERVALUED - AND ESSENTIAL: DOMESTIC WORKERS AND THE REALISATION OF THEIR RIGHTS

Darcy du Toit,2013-11-18 Millions of domestic workers experience exploitation in the privacy of their employers homes also in South Africa they are to a large extent beyond the reach of legal protection This book sums up four years of research on ways of realising their rights It highlights their essential role both as care givers and in enabling their employers to work outside the home Against the background of the Constitution and international law it examines ways of adapting the legal framework as well as alternative mechanisms including new forms of organisation for translating basic rights into effective regulation *Radical Solutions and eLearning* Daniel Burgos,2020-05-22 Educational Technology is the right couple to a

radical innovation Thanks to the appropriate technology in the right context with the best fit to the target audience education can be drastically improved meaning a better performance competence achievement match with the user s expectations and with the market needs Serious games Virtual reality Augmented reality Remote labs Online learning Blockchain Mobile learning and many other key technologies allow for a better explanation of so many subjects and even more for a complete student involvement and a full teacher engagement into the educational system Technology gives another angle to the same content provides the user with a personalised experience and pushes the limits of knowledge a little further every time This book presents a number of radical innovations through technology from experienced cases studies to be replicated and inspired by a powerful resource handbook for cutting edge education Urban Transport XIII C. A. Brebbia,2007 The continuing requirement for better urban transport systems and the need for a healthier environment have led to an increased level of research around the world This is reflected in the proceedings presented at the well established International Conference on Urban Transport and the Environment in the 21st Century This volume presents the steady growth in research into urban transport and will be of particular interest to engineers scientists and managers working in industry universities research organizations and government involved in the planning and management of urban transportation systems and transport policy The variety of topics covered are of primary importance for analysing the complex interaction in the urban transport environment and for establishing action strategies for transport and traffic problems Featured topics include Transport Modelling and Simulation Public Transport Systems Traffic Integration and Control Infrastructure and Maintenance Transport Sustainability Environment and Ecological Aspects Air and Noise Pollution Energy and Transport Fuels Transport Security and Safety Road and Parking Pricing Economic and Social Impact Land Use and Transport Integration Advanced Transport Systems Transportation Demand Analysis *Applied Mechanics Reviews* ,1990 **Who's**
