Terroir - The Cookbook Michael Broughton, 2015-07-22 Terroir is one of the Cape Winelands most acclaimed restaurants. It is located on the beautiful family owned Kleine Zalze wine farm in Stellenbosch where its oak tree shaded setting is ideal for enjoying an elegant and refined yet leisurely meal. The chalkboard menu reflects Chef Michael Broughton's ethos: what you leave off the plate is just as important as what you put on it. His deceptively simple dishes using quality seasonal ingredients of local traceable and ethical provenance are a sublime marriage of texture and colour characterised by bold punchy flavours that remain true to the original ingredients. Terroir The Cookbook is a culmination of Michael's techniques and skills that he has acquired over the years: a collection of recipes that are authentic and true to the Terroir style, much of which is grounded in the French classics and by default technically challenging. However, this is not a book for chefs only but rather for those who want to stretch themselves creatively and technically in the kitchen.

Starship-101 Rik de Mora, 2024-03-28 Starship 101 successfully landed on Proxima Centauri b about twenty years ago, marking humanity's first interstellar settlement. But with radio messages taking over four years to traverse the vast darkness of space, this fledgling colony has been isolated from Earth. Enter the Clason twins, Tarvin and Harden, the galaxy's preeminent Superposition Navigators. These brothers can bend the quantum space-time continuum to their will, instantaneously transporting people and cargo across the stars. To revive supply lines and reintegrate Proxima Centauri b into humanity's network of trade, the Clasons have been contracted to lead a modern resupply mission. Their quantum technology will provide the colony with the latest gadgets and gizmos from home. And the Navigators have another task: returning Starship 101 itself. That aging relic is now a valuable antique, the first testimony that humans can thrive beyond our solar cradle. Join the Clason twins as they quantum jump across the cosmos on this historic mission of reconnection.
