Decolonizing Civil Society in Mozambique Tanja Kleibl,2021-08-26 By demonstrating that Western conceptions of civil society have provided the framework for interpreting societies in the Global South Decolonizing Civil Society in Mozambique argues that it is only through a critical deconstruction of these concepts that we can start to re balance global power relationships both in academic discourse and in development practices Examining the exclusionary discourses framing the support for Western type NGOs in the development discourse often to the exclusion of local social actors this book dissects mainstream contemporary ideas about civil society and finds a new means by which to identify local forms of social action often based in traditional structures and spiritual discourses Outlining new conceptual ideas for an alternative framing of Mozambique s civil society Kleibl proposes a series of fresh theoretical issues and questions alongside empirical research moving towards a series of new policy and practice arguments for rethinking and decolonizing civil society in the Global South

Transformations of Rural Spaces in Mozambique Cecilia Navarra,Cristina Udelsmann Rodrigues,2021-11-18 With contributions from both Mozambican and non Mozambican scholars of multi disciplinary backgrounds and approaches this book provides a range of new perspectives on how Mozambique has been characterized by profound changes in its rural communities and places Despite the persistence of poverty in Mozambique significant investments have been made in rural areas in extractive industry or agribusiness resulting in both the transformation of these areas and a new set of tensions and conflicts related to land tenure and population resettlement Meanwhile the Mozambican rural landscape is one dominated by smallholders whose livelihoods depend on both farming and non farming activities and who are often extremely vulnerable to shocks and pressure over resources The emergence of new civil society organizations has led to clashes with in the interests of local political administrative and economic powers creating fresh social conflicts Transformations of the Rural Spaces in

Mozambique examines the process of transformation across a range of settings from the impacts of large scale industries and the transformation of agriculture to relations between state and non state actors and issues related to land *Regional Economic Outlook, October 2014* International Monetary Fund, 2014-10-20 Growth in much of Sub Saharan Africa is expected to remain strong driven by efforts to invest in infrastructure and strong agricultural production The current Ebola outbreak in Guinea Liberia and Sierra Leone is exacting a heavy toll with spillovers to neighboring countries External threats to the region s overall positive outlook include global financial conditions and a slowdown in emerging market growth **Regional Economic Outlook, April 2016, Sub-Saharan Africa** International Monetary Fund. African Dept., 2016-05-03 Economic growth in sub Saharan Africa as a whole has fallen to its lowest level in 15 years though with large variation among countries in the region The sharp decline in commodity prices has severely strained many of the largest economies including oil exporters Angola and Nigeria and other commodity exporters such as Ghana South Africa and Zambia At the same time the decline in oil prices has helped other countries continue to show robust growth including Kenya and Senegal A strong policy response to the terms of trade shocks is critical and urgent in many countries This report also examines sub Saharan Africa s vulnerability to commodity price shocks and documents the substantial progress made in financial develop especially financial services based on mobile technologies **Regional Economic Outlook, October 2016, Sub-Saharan Africa** International Monetary Fund. African Dept., 2016-10-25 Economic growth in sub Saharan Africa this year is set to drop to its lowest level in more than 20 years reflecting the adverse external environment and a lackluster policy response in many countries However the aggregate picture is one of multispeed growth while most of non resource intensive countries half of the countries in the region continue to perform well as they benefit from lower oil prices an improved business environment and continued strong infrastructure investment most commodity exporters are under severe economic strains This is particularly the case for oil exporters whose near term prospects have worsened significantly in recent months Sub Saharan Africa remains a region of immense economic potential but policy adjustment in the hardest hit countries needs to be enacted promptly to allow for a growth rebound **Regional Economic Outlook, April 2017, Sub-Saharan Africa** Céline Allard, 2017-05-09 Growth momentum in sub Saharan Africa remains fragile marking a break from the rapid expansion witnessed since the turn of the millennium 2016 was a difficult year for many countries with regional growth dipping to 1.4 percent the lowest level of growth in more than two decades Most oil exporters were in recession and conditions in other resource intensive countries remained difficult Other nonresource intensive countries however continued to grow robustly A modest recovery in growth of about 2.6 percent is expected in 2017 but this falls short of past trends and is too low to put sub Saharan Africa back on a path of rising living standards While sub Saharan Africa remains a region with tremendous growth potential the deterioration in the overall outlook partly reflects insufficient policy adjustment In that context and to reap this potential strong and sound domestic policy measures are needed to restart the growth engine Regional

Economic Outlook, April 2015, Sub-Saharan Africa International Monetary Fund. African Dept.,2015-04-28 The sharp decline in oil and other commodity prices have adversely impacted sub Saharan Africa Nevertheless the region is projected to register another year of solid economic performance In South Africa however growth is expected to remain lackluster while in Guinea Liberia and Sierra Leone the Ebola outbreak continues to exact a heavy economic and social toll This report also considers how sub Saharan Africa can harness the demographic dividend from an unprecedented increase in the working age population as well as the strength of the region s integration into global value chains *Multinational Interest &*

Development in Africa Ilan Bijaoui,2017-02-17 This book analyzes the current economic situations in African countries at the local regional and national level It examines the growing interest from developed and developing countries to invest in Africa and their different reasons for doing so which aren t always aligned with the interests of African countries Growth in African GDP has benefitted mainly multinational corporations while the rest of the population remains at the subsistence level creating a smaller middle class and less opportunity for local businesses to flourish This book offers potential models of cooperation which could create added value for both African countries and the MNCs investing in them Publications

Catalog, Fall 2014 International Monetary Fund,2014-09-25 This paper presents an overview of the book Collapse and Revival Understanding Global Recessions and Recoveries that tracks the global business cycle through the destruction of a global recession to the renewal of recovery drawing on four major episodes during the past half century This book defines the terms of global recessions and recoveries documents their main features describes the events that take place around these episodes puts the latest global recession and ongoing recovery in perspective and analyzes the interactions between fluctuations in the global growth and national growth over the different phases of the global cycle **Publications**

Catalog, Spring 2016 International Monetary Fund. Communications Department,2016-04-06 This IMF catalog provides the newest information on the key publications Each publication underpins IMF strategic positions and policy by disseminating global and regional surveillance products and analysis and by expanding country level outreach With this objective in mind the IMF publishes a wide variety of books periodicals and electronic products covering global economics international finance monetary issues statistics exchange rates and other global economic issues IMF s print and digital publications also present the analysis research policy advice and data on economic and financial sector issues at the global regional and country level The West African Economic and Monetary Union WAEMU has a long and varied history and this Building Integrated Economies in West Africa Lessons in Managing Growth Inclusiveness and Volatility book examines how the WAEMU can achieve its development and stability objectives improve the livelihood of its people and enhance the inclusiveness of its economic growth all while preserving its financial stability enhancing its competitiveness and maintaining its current fixed exchange rates **Designing a Fiscal Framework for a Prospective Commodity Producer** Mariusz

Jarmuzek,Diego Mesa Puyo,Najla Nakhle,2014-10-23 Lebanon is expected to have gas resources in its Mediterranean basin

and these could turn the country into a natural gas producer over the next decade Lebanon's economy and institutions will thus need to adapt to the challenges and opportunities that such change will bring In this paper we address how Lebanon's fiscal framework will need to be reformulated to take into account potential resource revenue Designing a fiscal regime appropriately is an absolute prerequisite to make sure the government can receive a fair share of the resources while investors face appropriate incentives to invest and develop the sector This step should be followed by setting macro fiscal anchors and supporting institutions The prospective framework should initially be focused on ensuring fiscal sustainability and intergenerational equity given the estimated relatively short horizon of Lebanon's gas resources Strong institutional arrangements also need to underpin the prospective framework to ensure that the pace of resource wealth's use is set in line with Lebanon's capacity constraints

Evaluating the Impact of Non-Financial IMF Programs Using the Synthetic Control Method

Ms.Monique Newiak,Tim Willems,2017-05-08 We use the Synthetic Control Method to study the effect of IMF advice on economic growth inflation and investment The analysis exploits the existence of IMF programs that do not involve any financing Policy Support Instruments PSIs This enables us to focus on the effects of IMF monitoring advice and approval as opposed to direct financial assistance In addition countries with non financial programs are typically not crisis struck thereby mitigating the reverse causality problem and facilitating the construction of counterfactuals Results suggest that treated countries add about 1 percentage point in annual real GDP per capita growth with inflation being lower by some 3 percentage points per year While we do not find evidence for an impact on total investment and the resulting capital stock PSI treatment does seem to stimulate foreign direct investment

The Politics of Precarity

Gediminas Lesutis,2021-12-30 Based on critical theory and ethnographic research this book explores how intensifying geographies of extractive capitalism shape human lives and transformative politics in marginal areas of the global economy Engaging the work of Judith Butler Henri Lefebvre and Jacques Rancière with ethnographic research on social and political effects of mining induced dispossession in Mozambique in the book Lesutis theorises how precarity unfolds as a spatially constituted condition of everyday life given over to the violence of capital Going beyond labour relations or governance of life in liberal democracies that are typically explored in the literature on precarity the book shows how dispossessed people are subjected to structural symbolic and direct modalities of violence this simultaneously constitutes their suffering and ceaseless desire however implausible to be included into abstract space of extractivism As a result despite the multifarious violence that it engenders extractive capital accumulation is sustained even in the margins historically excluded from contingently lived imaginaries of a good life promised by capitalism Presenting this theorisation of precarity as a framework on and a critique of the contemporary politics of unliveability the book speaks to key debates about precarity dispossession resistance extractivism and development in several disciplines especially political geography IPE global politics and critical theory It will also be of interest to scholars in development studies critical political economy and African politics

Republic of Mozambique

International Monetary Fund. African Dept.,2016-01-08 This Selected Issues paper examines the macroeconomic and fiscal implications of natural gas project for Mozambique Results which are based on the IMF Fiscal Analysis of Resource Industries model suggest that by the mid 2020s half of the country s output will be generated by natural gas However the fiscal revenues from the projects will remain moderate until the mid 2020s because of large depreciation costs for gas liquefaction facilities Although the economic potential emerging from the projects is tremendous macroeconomic and fiscal implications are quite sensitive to international commodity price developments and other risk factors highlighting that the government s authorities would be well advised in taking a cautious approach IMF Publications Catalog, Spring 2017

International Monetary Fund. Communications Department,2017-04-05 Spring 2017 IMF Publications Catalog highlights all new and forthcoming publications from the IMF in addition to key titles in the IMF collection **Landscapes of Activism**

Joel Christian Reed,2018-07-09 AIDS activists are often romanticized as extremely noble and selfless However the relationships among HIV support group members highlighted in Landscapes of Activism are hardly utopian or ideal At first the group has everything it needs a thriving membership and support from major donors Soon the group undergoes an identity crisis over money and power eventually fading from the scene As government and development institutions embraced activist demands decentralizing AIDS care through policies of health systems strengthening civil society was increasingly rendered obsolete Charting this transition from subjects to citizens and back again reveals the inefficacy of protest and the importance of community resilience The product of in depth ethnography and focused anthropological inquiry this is the first book on AIDS activists in Mozambique AIDS activism s strange decline in southern Africa rather than a reflection of citizen apathy is the direct result of targeted state and donor intervention **Historical Dictionary of**

Mozambique Colin Darch,2018-12-15 The new edition of Historical Dictionary of Mozambique covers the Bantu expansion the arrival of the Portuguese navigators and their str competition with local African power centers and coastal Arab Swahili trading towns the trade cycles of gold ivory and slaves the establishment of the semi Africanized prazos along the Zambezi Valley pacification campaigns and the period of Portuguese weakness in the late 19th and early 20th centuries when vast tracts of land were rented to concessionary companies In the late colonial period the Salazar dictatorship tried to reassert Portuguese power but after ten years of armed struggle for national liberation Mozambique gained its independence in 1975 The book contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Mozambique **University**

Autonomy Decline Kirsten Roberts Lyer,Ilyas Saliba,Janika Spannagel,2022-11-23 This book provides empirically grounded insights into the causes trajectories and effects of a severe decline in university autonomy and the relationship to other dimensions of academic freedom by comparing in depth country studies and evidence from a new global timeseries dataset

Drawing attention to ongoing discussions on standards for monitoring and assessment of academic freedom at regional and international organizations this book identifies a need for clearer standards on academic freedom and a human rights based definition of university autonomy Further the book calls for accompanying international oversight and the inclusion of criteria related to academic freedom in international university rankings Five expert authored case studies on academic freedom from diverse nations Bangladesh Mozambique India Poland and Turkey are included in the volume Drawing on both qualitative and quantitative evidence the book offers a unique and timely contribution to the field and will be of great interest to scholars researchers and students in the fields of higher education human rights political science and public policy This Open Access book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
