Modelling Autonomic Communications Environments John C. Strassner, Yacine M. Ghamri-Doudane, 2009-10-21 Research and development of autonomies have come a long way and we are lighted to present the proceedings of the 4th IEEE International Workshop on Modeling Autonomic Communications Environments MACE 2009 As in the last three years this workshop was held as part of Manweek the International Week on Management of Networks and Services which took place in the culturally rich city of Venice in Italy Manweek is now an umbrella of workshops and conferences focusing on different aspects of network and service management including MACE distributed operations and management DSOM based management IPOM towards multimedia and mobile networks MMNS and virtualization and middleware for next generation networks NGNMF Further information of Manweek and the individual workshops and conferences can be found at <http://www.manweek.org> MACE started as an experiment in 2006 and created a small community

that now finds itself attracted back each year by a feeling of excitement and anticipation to share new advances and development. Certainly MACE is not as shiny or practiced as other well known conferences and workshops but we consider this a feature of the workshop itself. New ideas a little rough around the edges and sometimes more than a little often quite unfinished pop out and provoke extensive discussion. Science needs this kind of exploratory adventure and we have been strongly motivated to continue preserving this atmosphere of exploration and discussion in this year's technical program. *Business Process Management Workshops* Danilo Ardagna, Massimo Mecella, Jian Yang, 2009-06-07. Constitutes the refereed post-workshop proceedings of 9 international workshops held in Milano Italy in conjunction with the 6th International Conference on Business Process Management BPM 2008 in September 2008.
