

Univariate ANOVA tests of Three Dependent Variables

Tests of Between-Subjects Effects

Source	Dependent Variable	Type III Sum of Squares	df	Mean Square	F	Sig.	Partial Eta Squared	Noncent. Parameter	Observed Power ^a
Corrected Model	Abortions per 1,000 women	428.334 ^b	3	142.778	1.581	.213	.102	4.682	.388
	Percent of pop who are Christian adherents	1825.803 ^c	3	541.934	3.944	.015	.224	11.832	.794
	Divorces per 1,000 pop	29.563 ^d	3	9.854	8.789	.000	.391	26.368	.991
Intercept	Abortions per 1,000 women	14552.274	1	14552.274	158.071	.000	.785	158.071	1.000
	Percent of pop who are Christian adherents	124783.712	1	124783.712	907.971	.000	.957	907.971	1.000
	Divorces per 1,000 pop	879.446	1	879.446	794.382	.000	.958	794.382	1.000
REGION	Abortions per 1,000 women	428.334	3	142.778	1.581	.213	.102	4.682	.388
	Percent of pop who are Christian adherents	1825.803	3	541.934	3.944	.015	.224	11.832	.794
	Divorces per 1,000 pop	29.563	3	9.854	8.789	.000	.391	26.368	.991

Above is a portion of the output table reporting the ANOVA tests on the three dependent variables, abortions per 1000, divorces per 1000, and % Christian adherents. Note that only the F values for %Christian adherents and Divorces per 1000 population are significant at your criterion of .017. (Note: the MANOVA procedure doesn't seem to let you set different p levels for the overall test and the univariate tests, so the power here is higher than it would be if you did these tests separately in a ANOVA procedure and set p to .017 before you did the tests.)

How To Report Univariate Anova

Rebecca M. Warner

How To Report Univariate Anova:

Applied Statistics II Rebecca M. Warner, 2020-01-14 Rebecca M Warner's bestselling *Applied Statistics From Bivariate Through Multivariate Techniques* has been split into two volumes for ease of use over a two course sequence *Applied Statistics II Multivariable and Multivariate Techniques Third Edition* is a core multivariate statistics text based on chapters from the second half of the original book The text begins with two new chapters an introduction to the new statistics and a chapter on handling outliers and missing values All chapters on statistical control and multivariable or multivariate analyses from the previous edition are retained with the moderation chapter heavily revised and new chapters have been added on structural equation modeling repeated measures and on additional statistical techniques Each chapter includes a complete example and begins by considering the types of research questions that chapter's technique can answer progresses to data screening and provides screen shots of SPSS menu selections and output and concludes with sample results sections By hand computation is used where possible to show how elements of the output are related to each other and to obtain confidence interval and effect size information when SPSS does not provide this Datasets are available on the accompanying website Bundle and Save *Applied Statistics II Applied Statistics I Basic Bivariate Techniques Third Edition Bundle Volume I and II* ISBN 978 1 0718 1337 9 An R Companion for *Applied Statistics II Multivariable and Multivariate Techniques Applied Statistics II Bundle* ISBN 978 1 0718 3618 7

Designing and Reporting Experiments in Psychology Peter Harris, Matthew J. Easterbrook, Jessica S. Horst, 2021-08-20 This book will help undergraduate psychology students to write practical reports of experimental and other quantitative studies in psychology It is designed to help with every stage of report writing and provides a resource that students can refer to throughout their degree up to and including when writing up a final year undergraduate project Now fully updated in its fourth edition this book maps to the seventh edition of the APA guidelines and offers more comprehensive advice guidelines and recommendations than ever before Students will benefit from Coverage of different forms of quantitative study including online studies and studies that use questionnaires as well as experiments A range of handy test yourself questions with answers at the end of the book Self reflection questions to prompt deeper understanding Summary sections that articulate the main points and provide a useful revision aid An Index of Concepts indicating where in the book every concept is introduced and defined Updated advice on how to find and cite references Expanded coverage of ethics in quantitative research including how to write ethically Common mistake symbols flagging areas where it's easy to be caught out Peter Harris is Emeritus Professor of Psychology at the University of Sussex UK where he led the Social and Applied Psychology Group He has taught research design and statistics for many years He has published extensively in social and health psychology Matthew J Easterbrook is Senior Lecturer in Psychology at the University of Sussex UK He has taught statistics at a national and international level Jessica S Horst is Reader in Psychology at the University of Sussex UK where she is also the Director of Teaching and Learning She has taught research methods in

both the USA and the UK Applied Statistics: From Bivariate Through Multivariate Techniques Rebecca M. Warner, 2013
Rebecca M Warner's Applied Statistics From Bivariate Through Multivariate Techniques Second Edition provides a clear introduction to widely used topics in bivariate and multivariate statistics including multiple regression discriminant analysis MANOVA factor analysis and binary logistic regression The approach is applied and does not require formal mathematics equations are accompanied by verbal explanations Students are asked to think about the meaning of equations Each chapter presents a complete empirical research example to illustrate the application of a specific method Although SPSS examples are used throughout the book the conceptual material will be helpful for users of different programs Each chapter has a glossary and comprehension questions Outer Continental Shelf Environmental Assessment Program, Final Reports of Principal Investigators ,1990 Statistics in Music Education Research Joshua A. Russell, 2018 In Statistics in Music Education Research author Joshua Russell explains the process of using a range of statistical analyses from inception to research design to data entry to final analysis using understandable descriptions and examples from extant music education research He explores four main aspects of music education research understanding logical concepts of statistical procedures and their outcomes critiquing the use of different procedures in extant and developing research applying the correct statistical model for not only any given dataset but also the correct logic determining which model to employ and reporting the results of a given statistical procedure clearly and in a way that provides adequate information for the reader to determine if the data analysis is accurate and interpretable While it is written predominately for graduate students in music education courses Statistics in Music Education Research will also help music education researchers and teachers of music educators gain a better understanding of how parametric statistics are employed and interpreted in music education

Advanced and Multivariate Statistical Methods Craig A. Mertler, Rachel A. Vannatta, Kristina N. LaVenita, 2025-09-17
Advanced and Multivariate Statistical Methods Eighth Edition offers conceptual and practical insights into multivariate statistical techniques designed for students without requiring deep technical or mathematical expertise This updated text facilitates conceptual understanding of multivariate statistical methods by limiting the technical nature of the discussion of those concepts and focusing on their practical applications It equips students with the tools to critically evaluate research articles that utilize these techniques and prepares graduate students to apply multivariate methods in analyzing their own quantitative data or that of their institutions This new edition has resources for instructors and students including an online test bank downloadable data sets and how to videos of the SPSS procedures available via the companion website www.routledge.com/cw/mertler and signposted throughout the book for easy reference A brief discussion of practical significance has also been added to Chapter 1 This book is tailored for students taking a multivariate statistics course in graduate programs across a range of fields including psychology education sociology criminal justice social work mass communication and nursing A Step-by-Step Guide to SPSS for Sport and Exercise Studies Nikos Ntoumanis, 2003-09-02 SPSS is the

international standard software package for data analysis in the social sciences This book is the only SPSS guide designed specifically for students in the fields of sport exercise and kinesiology It Includes sport specific cases and data throughout

Discovering Statistics Using SPSS Andy Field,2009-01-21 In this brilliant new edition Andy Field has introduced important new introductory material on statistics that the student will need and was missing at least in the first edition This book is the best blend that I know of a textbook in statistics and a manual on SPSS It is a balanced composite of both topics using SPSS to illustrate important statistical material and through graphics to make visible important approaches to data analysis There are many places in the book where I had to laugh and that s saying a lot for a book on statistics His excellent style engages the reader and makes reading about statistics fun David C Howell Professor Emeritus University of Vermont USA This award winning text now fully updated with SPSS Statistics is the only book on statistics that you will need Fully revised and restructured this new edition is even more accessible as it now takes students through from introductory to advanced level concepts all the while grounding knowledge through the use of SPSS Statistics Andy Field s humorous and self deprecating style and the book s host of characters make the journey entertaining as well as educational While still providing a very comprehensive collection of statistical methods tests and procedures and packed with examples and self assessment tests to reinforce knowledge the new edition now also offers a more gentle introduction to basic level concepts and methods for beginners new textbook features to make the book more user friendly for those learning about more advanced concepts encouraging critical thinking a brand new full colour design making it easy for students to navigate between topics and to understand how to use the latest version of SPSS Statistics both real world the bizarre and the wonderful and invented examples illustrate the concepts and make the techniques come alive for students an additional chapter on multilevel modelling for advanced level students reinforced binding to make the book easier to handle at a computer workstation The book also includes access to a brand new and improved companion Website bursting with features including animated SPSS walk through videos clearly demonstrating how to use the latest SPSS Statistics modules self marking multiple choice questions data sets for psychology business and management and health sciences a flash card glossary for testing knowledge of key concepts access to support material from SAGE study skills books Statistics lecturers are also provided with a whole range of resources and teaching aids including the test bank over 300 multiple choice questions ready to upload to WebCT Blackboard or other virtual learning environments charts and diagrams in electronic format for inclusion in lecture slides PowerPoint slides written by the author to accompany chapters of the text **Research Methods and Statistics** Bernard C. Beins, Maureen A. McCarthy, 2017-11-02 This seamless introduction to statistics and research methods identifies various research areas and analyzes how one approaches them statistically **How To Do Research** Jane F. Gaultney, Hannah D. Peach, 2015-12-17 Designed to help students make the leap from learning about research to doing research this manual provides an easy to understand walkthrough of the entire research process from

selecting a topic and conducting a literature review through presenting an APA style paper or presentation All of the 15 cross disciplinary labs included are appropriate for use in the social behavioral and health sciences and follow a consistent format objective description of a journal article canned data examples of what output should look like pointers on interpreting the output and a suggested activity for those who wish to collect their own data

Getting the books **How To Report Univariate Anova** now is not type of inspiring means. You could not forlorn going in imitation of book collection or library or borrowing from your friends to entre them. This is an entirely easy means to specifically acquire guide by on-line. This online message How To Report Univariate Anova can be one of the options to accompany you gone having new time.

It will not waste your time. agree to me, the e-book will utterly flavor you extra matter to read. Just invest tiny epoch to contact this on-line broadcast **How To Report Univariate Anova** as competently as review them wherever you are now.
