The Aqua Group Guide to Procurement, Tendering and Contract Administration Mark

Hackett, Gary Statham, 2017-05-02 This key text for the building team is an authoritative guide and gives a detailed account of the team's roles and responsibilities with best industry practice required to ensure that building projects meet clients' expectations on time, cost and quality. The second edition of *The Aqua Group Guide to Procurement, Tendering and Contract Administration* has been edited, enlarged and updated by a high profile author team with unparalleled experience of both private and public sectors as well as of teaching on QS courses. It covers the entire building process from inception to final account and throughout the emphasis is on current best practice. This edition has new material on the CDM regulations, JCT contracts, the RIBA Plan of Work, the RICS New Rules of Measurement, BIM and Sustainability as well as a general update for industry changes especially on procurement, internationalisation and PFI. With clear and thorough explanations you are taken through self-contained chapters covering the detail of the briefing stage, procurement methods, tendering procedures and contract administration. The period from starting a college course to successful completion of professional examinations represents a long and steep learning curve. The range of skills and the knowledge required to perform work efficiently and effectively might at first seem rather daunting. Although designed as an introductory textbook for undergraduates in construction, architecture and quantity surveying, *The Aqua Group Guide* offers an excellent overview of contract administration and will provide you with sufficient understanding to hold you in good stead for your early years in professional practice.

Small Projects Handbook Nigel Ostone, 2021-02-25 This hands-on, no-nonsense guide to running smaller projects most under 250,000 in value will become your bible in day-to-day practice. Smaller practices often find it hard to turn a profit as they spend too much time and money especially on the design stages trying to compete and are unsure as to what they can safely dispense with whilst still being rigorous and delivering quality. This book provides reassurance as to how to achieve great results on a budget utilising stripped-back and efficient solutions while following the principles and stages of the RIBA Plan of Work. Each chapter provides simple step-by-step guidance to the key tasks in that stage of the Plan of Work including inputs, outputs, stage activities and sustainability checkpoints in text features which break down complex tasks and highlight best practice with pragmatic real-world advice including tips, warnings and guidance on forms and templates, inspiring case studies of small projects that document the architect's experience of the process, guidance at each Plan of Work stage on the relevant practice issues that will help you to run your small project more effectively. Designed as a project handbook for smaller and medium-sized architectural practices, it is also invaluable for Part 3 students getting to grips with how projects are run within the RIBA Plan of Work framework. Everybody in the project team including clients, contractors and consultants will find this a handy guide to the project process full of useful insights and solutions.
