Wildcatters Roger M. Olien, Diana Davids Hinton, 2007 In the 1970s and 1980s the Texas wildcatter was a recognizable figure in popular culture Since then the wildcatter s role is less celebrated but still important as shown in the new introduction to this edition of a book originally published in 1984 by Texas Monthly Press Drawing heavily on oral histories this book tells the story of the West Texas independents as a group looking at their business strategies in the context of their national regional and local conditions The focus is on the Permian Basin and southeastern New Mexico over the sixty year period in which the region rose to prominence on the American oil scene producing about one fifth of the nation s output It is a story that covers vast technological change governmental regulation and economic fluctuation with profound implications for the oil and gas community The new introduction brings the story up to date by addressing not only the subsequent careers of the wildcatters described in the book but also the role of independents in the current economy ROGER M OLIEN who holds a Ph D from Brown University lives in Austin and is a member of the TSHA Speakers Bureau DIANA DAVIDS HINTON holds the J Conrad Dunagan Chair in regional and business history at the University of Texas Permian Basin Her Ph D is from Yale University **English for Daily Use** Edna Louise Sterling, 1929 *The Bellman* , 1917 **Jet** , 1996-01-22 The weekly source of African American political and entertainment news Wild Cats of the World Mel Sunquist, Fiona Sunquist, 2017-05-15 Did you know that European royalty once used cheetahs to hunt deer or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start Have you ever wondered whether domestic cats really do land on their feet when they fall or how Canada lynx can stalk their prey in the winter without falling through the deep snow Wild Cats of the World is a treasure trove of answers to questions like these and many others for anyone who s interested in learning more about the world s felids including the ones with whom we share our homes Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source many of them quite difficult to find including scientific papers descriptions of hunts archeological findings observations by naturalists and travelers reports from government agencies and newsletters from a wide variety of organizations Weaving information from
