 trends and developments in the communications industry several of which are related to advances in fast packet switching
 multi media services asynchronous transfer mode ATM and high speed protocols It seems fair to say that the face of
 networking has been rapidly changing and the distinction between LANs MANs and WANs is becoming more and more
 blurred It is commonly believed in the industry that ATM represents the next generation in networking The adoption of ATM
 standards by the research and development community as a unifying technology for communications that scales from local to
 wide area has been met with great enthusiasm from the business community and end users Reflecting these trends the
 technical program of the First International Conference on LAN Interconnection consists of papers addressing a wide range
 of technical challenges and state of the art reviews We are fortunate to have assembled a strong program committee expert
 speakers and panelists We would like to thank Professor Schwartz for his keynote speech We would like to thank Professor
 Yannis Viniotis and his students for the preparation of the index We gratefully acknowledge the generous financial support of
