**Educating About/for Food Security Through Environmental Education** Alishia A. Valeri, 2024-10-01 This text is relevant for members of faculties of education such as administrators directors of teacher education programs teacher educators for pre service and or inservice teachers and teacher candidates There is also a potential appeal to professors in higher education institutions as integration practices can be adapted to meet the requirements across disciplines K 12 classroom based teachers may find this text useful as a source for content based learning either from disciplinary or cross disciplinary practice as well as individuals serving in an educational capacity in community based settings for instance Parts of this work have already been presented in both US and Canadian based conferences such as the American Educational Research Association and the Canadian Society for the Study of Education and serve as optimal venues to reach the academic market Advertising in publications geared towards providing practical articles could also serve a way to reach classroom based and community based educators

**ENDORSEMENTS** Everybody needs to eat Unfortunately too many communities live food insecure and to not address this in our education system is a massive problem Valeri in the book *Educating about for Food Security through Environmental Education* offers brilliant insight through the study of integrating food security into teacher education In doing so Valeri shares the importance of language and specifically root metaphors in addressing food security as a deep cultural problem rather than one of natural occurrence and this book highlights generative ways to not only address food security in teacher education but also to prepare teachers that feel empowered to make very real material changes in their classrooms and communities John Lupinacci Washington State University In light of climate change and the impacts it will inevitably have on food production distribution *Educating about for food security through EE* is an important study examining the intersections of teacher education food security and sustainability Examining ways in which educators and researchers ought to integrate food security into classrooms while also examining the cultural causes of systemic inequity this book is important for teacher educators who are interested in further incorporating food security and suitability into their classrooms Brandon Edwards Schuth Oulu Finland *Manhood Acts* Michael Schwalbe, 2015-11-17 In *Manhood Acts* Michael Schwalbe offers a new perspective on the social construction of manhood and its relationship to male domination Schwalbe argues that study of masculinity has lost touch with its feminist roots and has been seduced by the politically safe notion of multiple masculinities *Manhood Acts* delineates the practices males use to construct women and men as unequal categories Schwalbe reclaims the radical feminist insights that gender is a field of domination not a field of play and that manhood is fundamentally about exerting or resisting control *Manhood Acts* arrives at the conclusion that abolishing gender as a system of oppression will require more than transgressive self presentation It will be necessary to end the exploitive economic relationships that necessitate manhood itself *After the Education Wars* Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers *After the Education Wars*

helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

Symbols of Canada Michael Dawson, Catherine Gidney, Donald Wright, 2018-10-23 From Timbits to totem poles Canada is boiled down to its syrupy core in symbolic forms that are reproduced not only on t shirts television ads and tattoos but in classrooms museums and courtrooms too They can be found in every home and in every public space They come in many forms from objects like the red uniformed Mountie the maple leaf and the beaver to concepts like free healthcare peacekeeping and saying eh But where did these symbols come from what do they mean and how have their meanings changed over time Symbols of Canada gives us the real and surprising truth behind the most iconic Canadian symbols revealing their contentious and often contested histories With over 100 images this book thoroughly explores Canada s true self while highlighting the unexpected twists and turns that have marked each symbol s history

**Sustainable Peace in Northeast Asia** Yong-Shik Lee, 2023-09-05 Sustainable Peace in Northeast Asia examines the causes of lasting and complex tensions in the region from underlying political historical military and economic perspectives discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the

**The Russian State and Russian Energy Companies, 1992-2018** Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company

varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states      *Global Perspectives on Language Assessment* Spiros Papageorgiou, Kathleen M. Bailey, 2019-02-07 The sixth volume in the Global Research on Teaching and Learning English series offers up to date research on the rapidly changing field of language assessment The book features original research with chapters reporting on a variety of international education settings from a range of diverse perspectives Covering a broad range of key topics including scoring processes test development and student and teacher perspectives contributors offer a comprehensive overview of the landscape of language assessment and discuss the consequences and impact for learners teachers learning programs and society Focusing on the assessment of language proficiency this volume provides an original compendium of cutting edge research that will benefit TESOL and TEFL students language assessment scholars and language teachers

**From Head Shops to Whole Foods** Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs *From Head Shops to Whole Foods* writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change

**Journal of American Indian Education** ,2019      **Surviving a Japanese Internment Camp** Rupert Wilkinson, 2013-12-04 During World War II the Japanese imprisoned more American civilians at Manila's Santo Tomas prison camp than anywhere else along with British and other nationalities Placing the camp's story in the wider history of the Pacific war this book tells how the camp went through a drastic change from good conditions in the early days to impending mass starvation before its dramatic rescue by U S Army flying columns Interned as a small boy with his mother and older

sister the author shows the many ways in which the camp's internees handled imprisonment and their liberation afterwards. Using a wealth of Santo Tomas memoirs and diaries plus interviews with other ex-internees and veteran army liberators, he reveals how children reinvented their own society while adults coped with crowded dormitories, evaded sex restrictions, smuggled in food, and through a strong internee government dealt with their Japanese overlords. The text explores the attitudes and behavior of Japanese officials ranging from sadistic cruelty to humane cooperation and asks philosophical questions about atrocity and moral responsibility. **American Book Publishing Record Cumulative, 1876-1949** R.R.
