The latter group is primarily based on the variety of sacred cultural elements emanating from the different religious traditions of the peoples of Europe, which are deemed worthy of protection and preservation due to their outstanding value in terms of their social, cultural, and religious significance. In view of this, the study provides evidence of the European States' active involvement with their sacred cultural treasures on the basis of the political and legal foundations of neutrality and pluralism. Furthermore, the book analyzes all relevant international legislative instruments, i.e., the plethora of EU, EC, and UNESCO norms, as well as all major European legislative patterns in light of their significance for the aforementioned aspects of pluralism and neutrality. The interdisciplinary references listed at the end of each chapter provide an additional incentive for further reading on the subject matter. The most important finding to emerge from the study is that there is a shared legal ethos in Europe that imposes a duty of appropriate care concerning the vast variety of sacred cultural goods and the religious cultural heritage in general, as an invaluable repository of European cultural capital. It also considers the sui generis nature of this capital, like any other type of asset, it may deteriorate or fade over time, necessitating investment in its preservation or refurbishment; nevertheless, like no other, this particular capital maintains a distinct cultural value as it contains an additional characteristic of sacredness expressed in the form of its religious character, the latter being analyzed as a triptych of religious memory, religious aesthetics, and religious beliefs. *Contemporary Issues in Cultural Heritage Tourism* Jamie Kaminski, Angela M.
