Linguistic Patterning G.M. Megson,2011-08-11 Eat the Bible Micah E. Chung,2024-07-19 People love their metaphors for the Bible The Bible is a sword a mirror a script a score a cathedral a rule book a user s manual a lamp a love letter But how did metaphor which in the eighteenth century was seen as a deceptive rhetorical trick become such a prominent tool for speaking of Scripture And how does one judge between a good metaphor and a bad one This book explores the theological use of metaphor to describe the nature and interpretation of Scripture It interrogates three such models the Bible as musical score Anthony Thiselton the Bible as theo dramatic script Kevin Vanhoozer and the Bible as light John Feinberg seeking to evaluate their faithfulness to Scripture and church tradition their fittingness to the current culture and their fruitfulness for understanding and practicing the biblical text The author then proposes and explores what he considers a better model one drawn from the Bible itself namely that of Scripture as food *Using NLP to Enhance Behaviour and Learning* Terry Elston,Kate Spohrer,2009-08-24 Elston and Spohrer take the reader through the background theory of NLP and provide a wealth of practical guidance on how to incorporate it into classroom practice It will help all teachers to improve the lives of their students they teach or support as well as their own NLP offers a ground breaking method of communication that helps people master the way they think and feel Many problems arise in classrooms because of inadequate rapport between student and teacher and between parent and teacher NLP can assist all who work in classrooms to master ways of creating excellent rapport and understanding **POSSESSION AND DESIRE Working with addiction, compulsion, and**

dependency Philip Harland,2012-05-23 Popular psychology therapy health education Choosing the temporary discomforts of desire over the permanent discomforts of possession A guide for health professionals patients clients and the lay public on working with addictions compulsions and dependencies in any of their multifarious forms and at any of their many levels from the apparently harmless to the destructively complex Part I is about understanding the systemic nature of addiction Part II deconstructs the bodymind stages of becoming addicted Part III is about therapist issues around the subject Part IV client issues Part V explains how to resolve addictive contradictions e g I can t give up and I must give up Part VI offers a systematic information activating and changework questionnaire for facilitators of all kinds from self helpers to experienced therapists *Deep Preaching* J. Kent Edwards,2009-08-01 J Kent Edwards recalls a story that late pastor J Vernon McGee told about seeing children in South Africa playing a game of marbles in the dust with real diamonds The precious stones were being handled with no regard for their true worth Edwards fears the same thing happens today when preachers offer Scriptural truth to listeners without being completely overwhelmed by its greatness themselves in the process Deep Preaching is his call to rethink preaching Edwards helps preachers learn to preach the word in ways that will powerfully change the lives of hearers He contends that sermons need not settle comfortably on the lives of the listeners like dust on a

coffee table He encourages preachers to join him in casting off the lines that moor their ministries to the status quo and make every effort to steer their preaching out of the comfortable shallows He urges them to preach deep sermons rather than superficial ones moving beyond the yawn inspiring to the awe inspiring from the trite to the transforming Origins of Mind Liz Swan,2012-12-22 The big question of how and why mindedness evolved necessitates collaborative multidisciplinary investigation Biosemiotics provides a new conceptual space that attracts a multitude of thinkers in the biological and cognitive sciences and the humanities who recognize continuity in the biosphere from the simplest to the most complex organisms and who are united in the project of trying to account for even language and human consciousness in this comprehensive picture of life The young interdiscipline of biosemiotics has so far by and large focused on codes signs and sign processes in the microworld a fact that reflects the field s strong representation in microbiology and embryology What philosophers of mind and cognitive scientists can contribute to the growing interdiscipline are insights into how the biosemiotic weltanschauung applies to complex organisms like humans where such signs and sign processes constitute human society and culture **Collage Quest** Donna L.
