Solution Manual

The graph illustrates the relationship between empirical and theoretical distribution functions. The x-axis is labeled 'x' and the y-axis is labeled 'y'. A step function, labeled 'EMPIRICAL D.F.', is plotted against a smooth curve, labeled 'THEORETICAL D.F.'. A diagonal line, labeled 'UNIFORM (0,10)', is also shown. The area under the step function is shaded, and the area under the smooth curve is also shaded. The diagonal line represents the uniform distribution on the interval (0,10).
