

## **Memorandum**

**Dated:** 14 January 2023

**To:** Sales & Marketing Group

**From:** Praveenkumar Revankar, Product Engineering

**Subject:** Delay in release timelines of Feature A and Feature B.

**Purpose:**

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinforce the group to reprioritize certain tasks for Sales and Marketing for the release.

**Background/Context:**

We have been working together on our key USP features "Feature A" and "Feature B" for targeting their release this quarter. Due to unforeseen circumstances, there is a chance in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

**Action:**

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1\_Paused" and "Q1\_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

**Conclusion:**

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,

Praveenkumar Revankar

### **Blood and Ruins**

Richard Overy,2023-04-04 Monumental A vast and detailed study that is surely the finest single volume history of World War II Richard Overy has given us a powerful reminder of the horror of war and the threat posed by dictators with dreams of empire The Wall Street Journal A thought provoking and original reassessment of World War II from Britain s leading military historian A New York Times bestseller Richard Overy sets out in Blood and Ruins to recast the way in which we view the Second World War and its origins and aftermath As one of Britain s most decorated and respected World War II historians he argues that this was the last imperial war with almost a century long lead up of global imperial expansion which reached its peak in the territorial ambitions of Italy Germany and Japan in the 1930s and early 1940s before descending into the largest and costliest war in human history and the end after 1945 of all territorial empires Overy also argues for a more global perspective on the war one that looks broader than the typical focus on military conflict between the Allied and Axis states Above all Overy explains the bitter cost for those involved in fighting and the exceptional level of crime and atrocity that marked the war and its protracted aftermath which extended far beyond 1945 Blood and Ruins is a masterpiece a new and definitive look at the ultimate struggle over the future of the global order which will compel us to view the war in novel and unfamiliar ways Thought provoking original and challenging Blood and Ruins sets out to understand the war anew

*Insurance in European VAT* Marta Papis-Almansa,2016-11-30 Insurance constitutes a significant part of the financial services sector and is one of the foundations of modern economy and society In the design of tax laws however whether and

how to tax insurance is a complex issue that has become particularly controversial in the area of value added tax VAT In the European Union as in most of the world insurance is exempt from VAT but New Zealand and Australia do not follow this practice Given that New Zealand s simple comprehensive goods and services tax GST called the world s purest value added tax and its modified Australian version do not appear to suffer from the shortcomings in efficiency and effectiveness that plague European VAT a comparison of the two systems is in order This book is not only the first comparative in depth study of the treatment of insurance in the two systems but also the first comprehensive legal research devoted to the treatment of insurance in EU VAT published in English Among the underlying issues and topics treated by the two systems covered are the following who has a right to deduct input VAT in relation to supplies inherent in insurance arrangements and to what extent what constitutes a supply of insurance and consideration for such a supply what transactions fall within the scope of the VAT Directive s exemption for insurance and drawing a line between insurance and saving The analysis is grounded in a methodology in which concepts of European VAT are compared with concepts performing the same function in the Australian and New Zealand GST laws The author concludes with proposals for reform in EU VAT in the light of experience in these two major non EU countries Given that it has been proven that exemptions from VAT such as insurance cause a significant number of economic distortions and inefficiencies this study represents a major contribution to a topical debate in European VAT law It will be welcomed by taxation authorities interested policymakers practitioners and scholars not only in Europe but worldwide
