It's Nation Time Jerry White, 2024-10-01 Speaking at the Congress of African People in September 1970 Amiri Baraka said In Newark when we greet each other on the streets we say what time is it We always say It's nation time Nationalism is about land and nation a way of life trying to free itself National identity and nationhood are too often easily dismissed as retrograde populism or racist exclusion Instead they need to be understood as a key part of a vision of globalization that holds the imperatives of diversity and solidarity in a delicate balance Jerry White offers a defence of the nation based on the assumption that struggles for national identity have often unfolded in ways that should be familiar to those who defend the political standpoint of the progressive left Having evolved into something that a wide variety of actors have sought to defend nations can also serve as a defence against the homogenizing forces of globalization and as havens of diversity in opposition to more singularly minded forms of affiliation It's Nation Time

is structured as a series of specific case studies that speak to theories of nation and their historical and cultural manifestations It includes examples as varied as Black nationalism Simone Weil s hopes for a postwar France the first independence period of Georgia the Bollywood cinema of Nehru era India and small or stateless nations such as New Zealand Quebec Ireland Catalonia the M tis the Mohawk and the Inuit to argue that nationalism is a social form that has much potential and life in it Broadly internationalist but also deeply insightful about the particular cultures and politics of small nations It s Nation Time defends an idea of nation and a form of nationalism that are rooted in the potential for diversity flexibility and progressive politics

The Global Village of the Twentieth Century Gloria K. Fiero, 1995
Vico's Axioms James Robert Goetsch, 1995-01-01 According to Goetsch Vico proposes that we abandon the alliance between logic and metaphysics and instead form one between logic and the rhetorical and poetical conceptions of human understanding that inform the human community In the way Vico revives the ancient sense of rhetoric found in Aristotle who stated that logic and rhetoric are counterparts Vico s philosophical system is best exemplified by the 114 axioms at the base

of his New Science These axioms which range over a puzzling variety of subjects do not follow a logical or geometric model in the conventional sense making it hard to account for Vico's claim that he thinks in the geometric manner Goetsch asserts however that they are used by Vico to express what Aristotle called maxims thoughts worth thinking which establish the fundamental points necessary to speak about human realities Spiritual, Moral, Social, & Cultural Education Stephen Bigger, 2013-10-23 First published in 1999 this book by a range of teachers and teacher trainers explores specified values in the curriculum as well as whole curriculum issues including religious education drama citizenship and vocational education as well as the National Curriculum subjects As a hugely controversial topic area without general consensus on many key points this book provides an introductory platform consistently pointing to sources of further reading and suggesting signposts through the issues Readers will get a wider insight into spiritual moral social and cultural issues as well as the development of values in general by reading the specialist chapters **Building Business Knowledge for Complex**
