by The Washington Post Los Angeles Times and Bloomberg American Gun The True Story of the AR 15 presents the epic history of America's most controversial weapon In the 1950s an obsessive firearms designer named Eugene Stoner invented the AR 15 rifle in a California garage High minded and patriotic Stoner sought to devise a lightweight easy to use weapon that could replace the M1s touted by soldiers in World War II What he did create was a lethal handheld icon of the American century In American Gun the veteran Wall Street Journal reporters Cameron McWhirter and Zusha Elinson track the AR 15 from inception to ubiquity How did the same gun represent the essence of freedom to millions of Americans and the essence of evil to millions more To answer this question McWhirter and Elinson follow Stoner the American Kalashnikov as he struggled mightily to win support for his invention which under the name M16 would become standard equipment in Vietnam Shunned by gun owners at first the rifle's popularity would take off thanks to a renegade band of small time gun makers And in the 2000s it would become the weapon of choice for mass shooters prompting widespread calls for proscription even as the gun industry embraced it as a financial savior Writing with fairness and compassion McWhirter and Elinson explore America's gun culture revealing the deep appeal of the AR 15 the awful havoc it wreaks and the politics of reducing its toll The result is a moral history of contemporary America's love affair with technology freedom and weaponry Includes 8 pages of black and white images
