Essentially, the limited protection of the company in developing markets poses a major risk to the company's business model. The company's business model is based on capturing the benefits resulting from the increased rates of economic growth from the emerging markets. However, the company's model can easily be imitated. Potentially, other companies could enter a consumer's markets and sell a variety of products and services. The weak intellectual property rights in emerging markets create a barrier to entry for other potential competitors. This creates an opportunity for other retail companies to compete with Amazon. Moreover, the limited legal and market protection which inhibits its efforts to expand in the new markets.
