alliance and decimation of its youth women s and veterans leagues Electorally the leading party has been ceding ground to increasingly assertive opposition parties And on the policy front it is faltering through poor implementation and a regurgitation of old ideas As Zuma s replacements start competing and succession politics take shape Booysen considers whether the ANC will recover from the damage wrought under Zuma s reign and attain its former glory Ultimately she believes that while the damage is irrevocable the electorate may still reward the ANC for transcending the Zuma years This is a must have reference book on the development of the modern ANC With rigour and incisiveness Booysen offers scholars and researchers a coherent framework for considering future patterns in the ANC and its hold on political power **Does**

Perspectives on the Legislature and the Prospects of Accountability in Nigeria and South Africa Omololu

Fagbadebo, Fayth Ruffin, 2018-08-03 This book examines the problem of accountability in two African political systems South Africa and Nigeria Despite the principle of separation of powers and the doctrine of checks and balances among the institutions of governance a burgeoning governance crisis stifles the potential of accountability and good governance Legislative oversight in the two countries remains largely ineffective while citizens are left to face the consequences of the mismanagement of public resources by political elites This book critically assesses how the legislative institutions in South Africa and Nigeria have been unable to harness the requisite constitutional powers to ensure accountability in government and explores the feasibility of their effectiveness The book begins with a comparative analysis of the principles tradition and powers associated with legislative capability in South Africa and Nigeria The chapters explore constitutional provisions and analyze the capacity of each legislature to function within its respective political environment The book also examines the process and challenges associated with the various measures and mechanisms available for legislatures to ensure accountability in the two countries Researchers scholars and students of African politics will find this book useful in their understanding of the problems associated with the simmering governance crisis in South Africa and Nigeria Handbook of Innovation for Sustainable Tourism Booyens, Irma, Brouder, Patrick, 2022-08-16 Offering conceptual empirical and policy contributions from leading international scholars in the field this comprehensive Handbook investigates a broad range of innovations and new approaches to tourism aimed at enhancing sustainability *Water Scarcity, Livelihoods and Food Security* Larry W. Harrington, Myles J. Fisher, 2014-08-21 This volume reviews the evolution of ten years learning and discovery about water scarcity livelihoods and food security within the CGIAR Challenge Program on Water and Food It draws on the experiences of over 100 projects conducted in ten river basins in the developing world The book describes how the program's design evolved from an emphasis on water scarcity water productivity and water access to an emphasis on using water innovations to improve livelihoods and address development challenges in specific river basins It shows how the research was used to foster change in stakeholder behavior linking it to improved knowledge attitudes and skills which were fostered by stakeholder participation innovation dialogue and negotiation The authors describe development challenges their drivers and their political context how to address them through technical institutional and policy innovations and the consequences of change at different scales time frames on equity resilience and ecosystem services Overall the work represents a major synthesis and landmark publication for all concerned with water resource management and sustainable development *Development and Investment in Infrastructure in Developing Countries: A 10-Year Reflection* Innocent Musonda, Erastus Mwanaumo, Adetayo Onososen, Retsepile Kalaoane, 2024-12-20 Development and Investment in Infrastructure in Developing Countries A 10 Year Reflection includes the contributions to the 10th International Conference on Development and Investment In infrastructure DII 2024 Livingstone Zambia 24-26 July 2024 The papers discuss evaluate and devise ways of maximising the benefits of infrastructure development and achieve outputs that will inform policy and

wider development goals This Open Access book is invaluable to leaders researchers practitioners and stakeholders involved or interested in infrastructure development in developing countries **Problematizing the Foreign Shop** Gastrow, Vanya, 2018-08-03 Small businesses owned by international migrants and refugees are often the target of xenophobic hostility and attack in South Africa This report examines the problematization of migrant owned businesses in South Africa and the regulatory efforts aimed at curtailing their economic activities In so doing it sheds light on the complex ways in which xenophobic fears are generated and manifested in the country s social legal and political orders Efforts to curb migrant spaza shops in South Africa have included informal trade agreements at local levels fining migrant shops and legislation that prohibits asylum seekers from operating businesses in the country Several of these interventions have overlooked the content of local by laws and outdated legal frameworks The report concludes that when South African township residents attack migrant spaza shops they are expressing their dissatisfaction with their socio economic conditions to an apprehensive state and political leadership In response governance actors turn on migrant shops to demonstrate their allegiance to these residents to appease South African spaza shopkeepers and to tacitly blame socio economic malaise on perceived foreign forces Overall these actors do not have spaza shops primarily in mind when calling for the stricter regulation of these businesses Instead they are concerned about the volatile support of their key political constituencies and how this backing can be undermined or generated by the symbolic gesture of regulating the foreign shop **Women and Climate Change in Bangladesh**

Margaret Alston, 2015-02-11 Bangladesh is by no means a high emitter of carbon but it is nevertheless one of the countries most critically affected There is a significant risk of damage to lives and livelihoods due to climate change in the form of cyclones flooding and storm surges and slow onset impacts such as droughts sea level rises and river basin erosion Moreover Bangladeshis are especially vulnerable as a high proportion of people live in extreme poverty This book assesses the impact of climate change in Bangladesh and presents the findings of a three year in depth study undertaken at village level in different districts of the country It examines national policies contrasting them with what is actually happening at village level It outlines the impact of climate change on livelihood strategies and health and focuses particularly on the impact on gender relations showing that although women have a significant role to play in helping communities cope with the effects of climate change cultural customs and practices often work against this The book argues for and puts forward policy proposals for recognising women s active contribution and supporting gender equality as a critical strategy in global adaptation to climate challenges **Limpopo Life** Anneli Ekblom, Michel Notelid, 2025-06-20 Limpopo Life introduces the reader to the
