Key Issues in Language Teaching Jack C. Richards, 2015-09-17 TESOL ESL Teaching

Face2face Chris Redston, 2008

Grammar in ELT and ELT Materials Graham Burton, 2023-06-06 This book investigates the content of the grammar syllabus typically employed in mainstream English Language Teaching Using a mixed methods approach the author examines how the syllabuses used in coursebooks are actually constructed how they evolved and how valid their contents are as a basis for teaching The research reported consists of a broad exploration of primary sources in order to outline the evolution of ELT pedagogical grammar ten interviews with key ELT authors and publishing professionals which allows for the investigation of the decision making processes underlying the choice of grammar content in ELT teaching materials and finally the presentation of case studies which examine three areas of grammar analysing the evolution of their treatment in ELT materials both historical and contemporary and comparing their current treatment to data on real learner use This book contributes to the literature on syllabus design and pedagogical grammar and builds on existing research into materials design It will be of interest to researchers and professionals working in the fields of applied linguistics pedagogical grammar curriculum design and materials design

Paradigms in Word Formation Alba E. Ruz, Cristina Fernández-Alcaina, Cristina Lara-Clares, 2022-09-15

The focus of Paradigms in Word Formation Theory and applications is on the relevance of paradigms for linguistic description. Paradigmatic organization has traditionally been considered an inherent feature of inflectional morphology but research in the last decades clearly shows the existence of paradigms in word formation especially in affixal derivation often at the expense of other word formation processes. This volume seeks to address the role that paradigms may play in the description of compounding, conversion and participles. This volume should be of interest to anyone specialized in the field of English morphology and word formation. **Applied Linguistics and Materials Development** Brian Tomlinson, 2012-12-06

Focuses for the first time on materials development and applications of current research and theory for the main areas of applied linguistics e.g. second language acquisition, pragmatics, vocabulary studies. There are many books on applied linguistic theory and research and there are now a number of books on the principled development of materials for language learning but this book takes a new approach by connecting the two concerns. Each of its chapters first of all presents relevant theories and research conclusions for its area and then considers practical applications for materials development. The chapters achieve these applications by reporting and commenting on current theory and research by analysing the match between current published materials and current theory and by suggesting and exemplifying applications of current theory to materials development. This will be an essential resource both for those studying or teaching materials development and for those studying or teaching applied linguistics. *face2face Elementary Workbook* Chris Redston, Gillie

Cunningham, 2005-03-10. The Workbook offers additional practice of all the language taught in the Student's Book. It also features a Reading and Writing Portfolio linked to the CEF which contains lessons to be used either for self study or in class. A list of Can do statements helps students to track their own progress in reading and writing. The Workbook also features a removable Answer Key as well as Self study exercises for every lesson of the Student's Book. *face2face* Klett
