Kelly, 2019-05-07 Standardized assessments have long been part of the educative experience for students around the world The high stakes nature of these tests can have damaging and enduring effects for public school systems particularly the youth With the adoption of Common Core State Standards and mandated state wide accountability measures high stakes tests like the PARCC gained quick and controversial notoriety The high stakes discourse has been dominated by politicians educators and parents Notably absent from this dialogue are the voices of those whom are impacted the most students Largely influenced by Critical Pedagogy this research sheds light on the negative punitive and often arbitrary nature of testing in schools The paramount intention of this publication is to raise

Turner,2023-01-12 In her final year of teaching Jocelyn Turner spent over one fifth of each week administering mandatory tests and quizzes She spent the remaining time preparing students to take those specific exams regardless of the background knowledge and preparedness of individual students While she was testing she could not teach Teachers were expected to present the same Common Core based grade specific material to all their students at the same time whether Jake was reading at a first grade level or Taylor at a ninth grade level It was a rare and lucky child who fit the profile of the year s onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read We have been told that US education is in crisis Ms Turner agrees In Fighting the White Knight she argues that government mandates created and are now perpetuating this crisis depriving children of remedial learning instruction time and personal attention Fighting the White Knight also looks at the 1 6 trillion student debt crisis a consequence of today s single minded college bound pipeline vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical and gifted education Ms Turner concludes by advocating for changes she believes can rescue American education guiding children back to the safe inspirational learning experiences of a more student focused time **Uphill Both Ways** Helen

Negotiating Opportunities Jessica McCrory Calarco,2018-02-01 In *Negotiating Opportunities* Jessica McCrory Calarco argues that the middle class has a negotiated advantage in school Drawing on five years of ethnographic fieldwork Calarco traces that negotiated advantage from its origins at home to its consequences at school Through their parents coaching working class students learn to follow rules and work through problems independently Middle class students learn to challenge rules and request assistance accommodations and attention in excess of what is fair or required Teachers typically grant those requests creating advantages for middle class students Calarco concludes with recommendations advocating against deficit oriented programs that teach middle class behaviors to working class students Those programs ignore the value of working class students resourcefulness respect and responsibility and they

do little to prevent middle class families from finding new opportunities to negotiate advantages in school
