The Road to 9/11 Peter Dale Scott, 2007-09-04 Scott s brilliantly perceptive account of the underpinnings of American governmental authority should be made required reading The book vividly depicts the political forces that have pushed this country toward an abyss threatening constitutional democracy at home and world peace abroad Its central message can be understood as an urgent wake up call to everyone concerned with the future of America Richard Falk author of The Great Terror War Peter Dale Scott is one of that tiny and select company of the most brilliantly creative and provocative political historical writers of the last half century The Road to 9 11 further secures his distinction as truth teller and prophet He shows us here with painful yet hopeful clarity the central issue of our time America s coming to terms with its behavior in the modern world As in his past

work Scott's gift is not only recognition and wisdom but also redemption and rescue we simply cannot do without Roger Morris former NSC staffer *The Road to 9/11* is vintage Peter Dale Scott Scott does not undertake conventional political analysis instead he engages in a kind of poetics crafting the dark poetry of the deep state of parapolitics and of shadow government As with his earlier work *Deep Politics and the Death of JFK* Scott has no theory of responsibility and does not name the guilty Rather he maps out an alien terrain surveying the topography of a political shadow land in which covert political deviancy emerges as the norm After reading Scott we can no longer continue with our consensus driven belief that our so called liberal order renders impossible the triumph of the politically irrational Eric Wilson Senior Lecturer of Public International Law Monash University and co editor of *Government of the Shadows* Peter Dale Scott exposes a shadow world of oil terrorism drug trade and arms deals of covert financing and parallel security structures from the Cold War to today He shows how such parallel forces of the United States have been able to dominate the agenda of the George W Bush Administration and that statements and actions made by Vice President Cheney and Defense Secretary Rumsfeld before during and after September 11 2001 present evidence for an American deep state and for the so called Continuity of Government in parallel to the regular public state ruled by law Scott's brilliant work not only reveals the overwhelming importance of these parallel forces but also presents elements of a strategy for restraining their influence to win back the public state the American democracy Ola Tunander International Peace Research Institute Oslo A powerful study of the historic origins of the terrorist strikes of September 11 this book offers an indispensable guide to the gluttonous cast of characters who since Watergate and the fall of Nixon fashioned an ever more reckless American empire By exposing the corrupt U S deep state transfer of public authority to America's wealthy and to the nation's unaccountable secret intelligence agencies Peter Dale Scott's *The Road to 9/11* illuminates the path toward a more democratic and inclusive republic David MacGregor King's University College at the University of Western Ontario *The Road to 9/11* provides an illuminating and disturbing history of the American government since World War II Scott's account suggests that the 9/11 attacks were a culmination of long term trends that threaten the very existence of American democracy and also that there has been a massive cover up of 9/11 itself This book which combines extensive research perceptive analysis and a fascinating narrative will surely be considered Scott's magnum opus David Ray Griffin author of *Debunking 9/11 Debunking The America we knew and loved Can it be saved* That question opens this book and getting to the answer called for the honed intellect of a scholar and the sensitivity of a poet Peter Dale Scott has both in spades and here gives us much much more than a book about 9/11 In a time of fear he speaks for sanity and freedom Anthony Summers author of *The Arrogance of Power* *The 9/11 Commission Report* United States. Congress. House. Committee on Financial Services, 2004 *Hearing on the Report of the President's Review Group on Intelligence and Communications Technologies* United States. Congress. Senate. Subcommittee on National Security, Emerging Threats, and International Relations,2005 The 9/11 Commission Report David Ray Griffin,2005 An analysis of the 9 11 Commission report argues that the Commission supported an officially sanctioned conspiracy theory while ignoring alternative explanations and charges that Commission members had conflicts of interest due to ties to the FBI and Department of Justice **The Report of the Quadrennial Defense Review Independent Panel** United States. Congress. Senate. Committee on Armed Services,2011 Conspiracy Cinema David Ray Carter,2012-09-28 The only guide to this emerging genre of cinema Still marginalized by mainstream media conspiracy theories are a growing influence on the contemporary political imagination thanks to internet distribution of conspiracy cinema documentaries presenting conspiratorial explanations everything from 9 11 to the Kennedy assassinations Roswell to the causes of HIV One hundred million people around the world have watched one of these films and this is the first book to explain and explore what they are seeing Lighthearted funny and interactive this is the definitive and only guide to this intriguing and immensely popular form of modern entertainment *The Harbinger Theory* Robert Diab,2015 The Harbinger Theory demonstrates that extreme measures have been consistently embraced in politics scholarship and public opinion not in terms of a general fear of the greater threat that terrorism now poses but a more specific belief that 9 11 was the harbinger of a new order of terror giving rise to the likelihood of an attack on the same scale as 9 11 or greater in the near future involving thousands of casualties and possibly weapons of mass destruction It explains how the harbinger theory shapes debates about rights and security by virtue of rhetorical strategies on the part of political leaders and security experts and in works of popular culture in which the theory is often invoked as a self evident truth without the need for supporting evidence or authority *Black 9/11* Mark Gaffney,2016-09-01 The weeks following the attacks of September 11 2001 were traumatic for nearly every American but for some the answers they received from the media and the government to explain the horrific events was not satisfactory Accusations of cover ups internal plots and sabotage from within the ranks of the U S government were and continue to be not uncommon But compelling evidence contrary to the accepted narrative has for some skeptics been lacking This investigation into the events of that day reveals dark secrets about United States sponsored terrorism Taking highly complex technical and scientific information and distilling it for the consumption of the lay person this inquiry attempts to reveal the truth behind that infamous day **Federal Communications Commission Reports** United States. Federal Communications Commission,1977 *Review of the 9/11 Commission's Intelligence Recommendations* United States. Congress. Senate. Committee on Appropriations,2004 **Beyond the Last War** Nathan Freier,Stephanie Sanok,Jacquelyn Guy,2013-05-23 There are currently real pressures on U S ground forces to define their contingency future For example there is a perceived decline in plausible conventional warfighting scenarios and many see maintaining large standing ground

capabilities solely as a hedge against uncertainty as cost prohibitive in an era of declining resources As U S officials will undoubtedly want to consider the widest possible range of military options in the event of future crises this study endeavors to identify ground force options that are most important to the security of core U S interests in two key regions of the world the Middle East and South Asia and the Asia Pacific It is meant to help the Department of Defense define future challenges risk as it relates to ground forces and identify and classify specific qualitative risks that could undermine future operational success While the study focuses on U S Central Command USCENTCOM and U S Pacific Command USPACOM its findings are likely relevant worldwide
