How to cite a journal article using APA style

To cite a journal article using APA style, you need to cover the following details of the source in the following sequence:

## SOME POINTS TO REMEMBER!

- Invert the authors' names, i.e., an author's last name should appear first followed by his/her initials, each of which must be followed by a period (.)
- If the source has only 2 authors, separate them using an ampersand (&) instead of "and"
- The **title of the article** must be followed by a period
- The **title of the journal or periodical** must be italicized and followed by a comma (,)
- The **issue number** must be followed by a comma and there should be no space between it and the **volume number**
- **Page numbers** must be followed by a period

This book provides a formula for data-driven results. It details a process ensuring high-level student achievement.

*Guide to Publishing in Psychology Journals* Robert J. Sternberg, 2019 This book is an indispensable guide to how to write articles, choose journals and deal with revisions or rejection. Each chapter is written by a highly experienced journal editor, people who have actually made decisions on manuscripts and publication as well as being eminent in their respective scientific field and written many articles themselves. It showcases parts of articles, discusses journal submission, outlines the resubmission process and highlights systemic issues. Clear instructions are given on writing an empirical article, literature reviews, titles and abstracts, introductions, theories, hypotheses, methods and data analysis. Each part of the process is laid out from presenting results to mapping out a discussion and writing for referees. The integral skills of revising papers and ensuring a high impact are taught in article writing 101. Whilst less intuitive knowledge is provided concerning publishing strategies, references, online submission, review systems, open access and ethical considerations.

Conducting Research Lawrence T. Orcher, 2016-10-14 Prepares students to conduct their first empirical research study with quantitative and qualitative methods covered in detail. Common features as well as differences between the two research approaches are explored. While theoretical material is included, the emphasis is on providing practical, easy-to-follow advice on how to conduct a first research project. Unlike most texts with hypothetical examples, this text with real examples written by a variety of published researchers makes research methods come alive. Students see how research methods are used to explore important contemporary problems. Factual Questions at the end of each chapter help students review key concepts covered in the chapters. Questions for Discussion encourage students to consider specific techniques and strategies that they might use while conducting their research.

**Best Practices in Teaching Statistics and Research Methods in the Behavioral Sciences** Dana S. Dunn, Randolph A. Smith, Bernard C. Beins, 2007-03-27 This book provides a showcase for best practices in teaching statistics and research methods in two and four-year colleges and universities. A helpful resource for teaching introductory, intermediate and advanced statistics and/or methods, the book features coverage of ways to integrate these courses, how to promote ethical conduct, how to create writing-intensive programs, novel tools and activities to get students involved, strategies for teaching online courses and computer applications, guidance on how to create and maintain helpful web resources, assessment advice to help demonstrate that students are learning, tips on linking diversity to research methodology. This book appeals to veteran and novice educators and graduate students who teach research methods and/or

statistics in psychology and other behavioral sciences and serves as an excellent resource in related faculty workshops Downloadable resources with activities that readers can customize is included Fire & Ice Carol A. Mullen, 2005 Fire Ice presents the educational inquiry process to school practitioners and aspiring leaders The context for this study is unusual because it addresses inquiry learning at both the master's and doctoral level and within group settings The picture that emerges illustrates ways for mentors to engage graduate students in learning writing and research through collaborative structures with an emphasis on learning communities as the primary vehicle for growth and success In the book graduate students have served as research participants focus group members and survey respondents in their dual role as peer mentor Because graduate education is being challenged to meet the changing needs of the twenty first century the influence of the professions on academic degrees has meant that students must develop as scholar practitioners instead of strictly intellectual academics Metaphorically the fire possibility desire and content and ice restraint structure and form of scholarly inquiry is used as a literary device to capture what it might mean for students to perform inquiry **Online Counselor Education** Carl J.
