

Research Paper: Grade 5

Students are responsible for writing their papers as explained in class. Students will hear a presentation in class about writing their paper including the following topics:

- ❖ Learning to narrow a topic for research
- ❖ Learning to formulate questions about the topic chosen
- ❖ Learning to write a thesis statement
- ❖ Learning to write and know the difference between topic sentences and detail sentences
- ❖ Learning to take notes using a graphic organizer
- ❖ Learning to outline from the graphic organizer
- ❖ Learning to write concluding paragraphs
- ❖ Learning to write a Works Cited page.

Topic: What invention and inventor has had the biggest impact on your life today?

Purpose:

- To inform: give information about your chosen person, summarizing factual information from a variety of sources.
- To analyze: evaluate the research and present your conclusions. The research you include from other sources in your paper should support your conclusion that the inventor you have chosen is relevant to today's world. It is important to remember that this is not a paper where you have room to include your own opinions, particularly if they are not based on research. Even if you know something about your topic, you must back it up with the research found in your sources.
- To persuade: write in such a way that you convince your audience that your invention and inventor is *significant* to your life today.

Audience: your peers and teacher. Even though you are addressing your peers, you must use formal language. **Slang and contractions are NOT allowed.**

Point of View: Third person. Do not use any 1st or 2nd person pronouns such as "I" or "you". Instead, write in an objective format. For example: Instead of saying, "I believe the inventor and invention that has the biggest impact on my life today is..." Use this, "The inventor and invention that has the biggest impact on middle school students is..."

Length: Five (5) paragraphs of at least 5 – 7 sentences @ paragraph (not counting your Works Cited page)

Students in the early years of their development have a tremendous capacity for learning. By focusing on providing authentic writing experiences for kindergarten through sixth grade students, librarians and teachers can help transform students into competent writers well before they reach middle school. Written by the inventor of the School Library Writing Center, this book is the only one of its kind. It gives you clear and easy-to-read instructions on how to create and structure engaging and productive lessons in writing, as well as reproducible worksheets that are ready to implement in your library or classroom. Each worksheet relates directly to writing lessons discussed in the book and serves to guide students and their teachers as they explore the exciting world of writing. Readers will learn why and how they can create and maintain a School Library Writing Center. The book moves sequentially through the grade levels, starting with kindergarten and concluding at grade six, with each chapter focusing on a specific grade level. The author explains best practices with regards to tutoring writing in each grade, discusses the developmental levels and skills expected in a particular grade with regards to writing and reading, addresses grade-specific Common Core learning standards, discusses grade-appropriate online resources and technology-enabled activities that will help students become better writers, and identifies practical tutoring methods that will help students develop as writers. *Research in Education*, 1973-12. *The Conscious Teacher*. Deborah Nichols

Poulos, 2020-01-13. *The Conscious Teacher* is about all kinds of strategies and techniques educators might employ to become more effective teachers. In an accessible conversational style, Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike. She begins with her personal story of not being able to read all through elementary school. Her early failures convinced her she was dumb. At first she struggled, but when she still failed, she adopted an avoidance strategy that served her well until junior high. An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and later to applying the lessons she learned as a child to her own teaching. What makes *The Conscious Teacher* unique are the inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching. Ms. Nichols Poulos points out, for example, that from the very first day it is important that students learn they will be treated with dignity and respect, no matter what. And especially helpful are the steps Ms. Nichols Poulos employs to set up a behavior management plan that works. She explains the strategic steps she takes before school starts, how essential it is to get to know each student before they walk into class on that first day. She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute. And she emphasizes the importance of the parent-student-teacher team and includes many examples of how to communicate with and involve parents, even those who may be difficult. Foundational to her program are reading and writing. Among other things, she lays out the steps for students, even as early as fourth grade, to write five-paragraph essays and their own student-authored books and to research and write reports that include bibliographies. When she differentiated curriculum to support all students' needs, she found their learning accelerated. All teachers will appreciate her ideas about

how to teach the basics of math as well as advanced math concepts And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize The Conscious Teacher is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling *Social Impact of Research in Psychology* Marta Soler-Gallart, Erica Rosenfeld Halverson, Sara Cadavid, 2022-02-08 *Los Angeles Educational Research Bulletin* Board of Education of the City of Los Angeles, 1922 The Journal of Educational Research , 1924 **Proceedings of the 1998 Northeastern Recreation Research Symposium, April 5-7, 1998, the Sagamore on Lake George in Bolton Landing, New York** Hans G.
