Teaching First Grade Min Hong, 2001-07 A mentor teacher shares insights strategies and lessons for teaching reading writing and math and laying the foundation for learning success Feminist Posthumanisms, New Materialisms and Education Jessica Ringrose, Katie Warfield, Shiva Zarabadi, 2020-04-28 This edited collection is a careful assemblage of papers that have contributed to the maturing field within education studies that works with the feminist implications of the theories and methodologies of posthumanism and new materialism what we have also called elsewhere PhEmaterialism The generative questions for this collection are what if we locate education in doing and becoming rather than being And how does associating education with matter multiplicity and relationality change how we think about agency ontology and epistemology This collection foregrounds cutting edge educational research that works to trouble the binaries between theory and methodology It demonstrates new forms of feminist ethics and response ability in research practices and offers some coherence to this new area of research This volume will provide a vital reference text for educational researchers and scholars interested in this burgeoning area of theoretically informed methodology and methodologically informed theory The chapters in this book were originally published as articles in Taylor Francis journals **Kindergarten Readiness for All** Melissa Stormont, Daniel R. Cohen, 2021-08-06 This book provides a framework for all kindergarten teachers to use to support young children in their transition to kindergarten It offers an overview of the importance of this transition for young children and shows how their success can be supported through the use of specific supports The topics covered here include the various ways to involve children and their families use assessment information and use a collection of strategies for children based on their needs The book is comprehensive in covering a multitude of needs children and their families may have from basic support needs to creative and tailored ways to involve families and to using specific social skills templates to teach and support social skills for young children The final chapter of the book also addresses the need to determine children who need more focused supports and provides concrete strategies to use for children with more intensive needs **The Family Firm** Emily Oster, 2022-08-02 The instant New York Times bestseller A Behavioral Scientist Notable Book of 2021 Emily Oster dives into the data on parenting issues cuts through the clutter and gives families the bottom line to help them make better decisions Good Morning America From the bestselling author of Expecting Better and Cribsheet the next step in data driven parenting from economist Emily Oster In The Family Firm Brown professor of economics and mom of two Emily Oster offers a classic business school framework for data driven parents to think more deliberately about the key issues of the elementary years school health extracurricular activities and more Unlike the hourly challenges of infant parenting the big questions in this age come up less frequently But we live with the consequences of our decisions for much longer What s the right kind of school and at what age should a particular kid start How do you encourage a healthy diet Should kids play a sport and how seriously How do you think smartly about encouraging children s independence Along with these bigger questions Oster

investigates how to navigate the complexity of day to day family logistics Making these decisions is less about finding the specific answer and more about taking the right approach Parents of this age are often still working in baby mode which is to say under stress and on the fly That is a classic management problem and Oster takes a page from her time as a business school professor at the University of Chicago to show us that thoughtful business process can help smooth out tough family decisions The Family Firm is a smart and winning guide to how to think clearly and with less ambient stress about the key decisions of the elementary school years Parenting is a full time job It s time we start treating it like one

Resources in Education ,1998 **Complexity Theory and Educational Leadership in Schools** Patrick McQuillan,Laura Schall-Leckrone,Brad Kershner,Anna Noble Dunphy,Ksenia Filatov,2025-02-20 The research in this volume draws on aspects of complexity theory and its integral link to systems performance to propose a new method for combatting the longstanding opportunity gap and related underperformance of so many underserved students in the American educational system Through a longitudinal case study of the Lynch Leadership Academy at Boston College this research considers the initial conditions and related disequilibrium principals experienced the degree to which principals shared power and authority within their school context and the extent to which they generated a shared school culture founded on collaboration and systematic reflection From these data the authors create a detailed picture of the Academy and its impact on the principals and their schools using a new analytic tool called the systems transformation heuristic designed by the authors to quantify the qualitative dimensions of a school s efforts to enact adaptive change consistent with the complex adaptive system metaphor As such it offers a new foundation for conceptualizing ongoing systems change as well as a fresh model for school personnel to consider their experience from concrete intertwined and unique points of view It will appeal to scholars researchers and practitioners with interests in educational leadership complexity theory urban education and social justice
