Personal Finance 101 isn't offered in our schools, not in high school and not even in the best colleges and graduate programs. It should be. Of course, if it were, I wouldn't be able to write fun and useful books such as this, or maybe they'd use this book in the course. People keep making the same common financial mistakes over and over: procrastinating and lack of planning, wasteful spending, falling prey to financial salespeople and pitches, failing to do sufficient research before making important financial decisions, and so on. This book can keep you from falling into the same traps and get you going on the best paths. As unfair as it may seem, numerous pitfalls await you when you seek help for your financial problems. The world is filled with biased and bad financial advice. As a practicing financial counselor and now as a writer, I constantly see and hear about the consequences of poor advice. Of course, every profession has bad apples, but too many of the people calling themselves financial planners have conflicts of interest and an inadequate competence level. All too often, financial advice ignores the big picture and focuses narrowly on investing. Because money is not an end in itself but a part of your whole life, this book helps connect your financial goals and challenges to the rest of your life. You need a broad understanding of personal finance to include all areas of your financial life: spending, taxes, saving, and investing, insurance, and planning for major goals like education, buying a home, and retirement. You want to know the best places to go for your circumstances, so this book contains specific, tried, and proven recommendations. I also suggest where to turn next if you need more information and help. Credit Repair Secrets Jake Robbins, 2021-04-13 Do you realize your credit score? You should. How to Create, Establish and Repair My Credit Octavio Ponce, 2013-05-13 It is important to familiarize ourselves with our credit report and have it close to maintain it in good standing and take advantage of it the most we can. The credit report is not the loan institutions responsibility nor financial institutions or banks that are the ones that utilize it to decide under which terms they approve the loan, the credit report is each individuals responsibility. You would think that if you bought everything in cash then you would never need a loan or any kind of financing and you would not have to familiarize yourself with what is credit, but allow me to tell you that the credit report is not utilized or analyzed only for people that ask for loans. The credit report affects a lot of other factors in your daily life like how your auto insurance, your work, your position at your job and your rent in fact affect your daily life. That is why I repeat that credit is one of the tools mostly utilized in actuality. Learn how to utilize it in your favor and obtain all the benefits that it gives you. scores just don't really matter. These sorts of misconceptions can hurt your chances at some jobs at good interest rates and even your chances of getting some apartments. The truth is if you have a bank account and bills then you have a credit score and your credit score matters more than you might think. Your credit score may be called many things including a credit risk rating, a FICO score, a credit rating, a FICO rating, or a credit risk score. All these terms refer to the same thing: the three digit number that lets lenders get an idea of how likely you are to repay your bills. Every time you apply for credit, apply for a job that requires you to handle money, or even apply for some more exclusive types of apartment living, your credit score is checked. In fact, your credit score can be checked by anyone with a legitimate business need to do so. Your credit score is based on your past financial responsibilities and past payments and credit, and it provides potential lenders with a quick snapshot of your current financial state and past repayment habits. In other words, your credit score lets lenders know quickly how much of a credit risk you are. Based on this credit score, lenders decide whether to trust you financially and give you better rates when you apply for a loan. Apartment managers can use your credit score to decide whether you can be trusted to pay your rent on time. Employers can use your credit score to decide whether you can be trusted in a high responsibility job that requires you to handle money. The problem with credit scores is that there is quite a bit of misinformation circulated about, especially through some less than scrupulous companies who claim they can help you with your credit report and credit score for a cost, of course. From advertisements and suspect claims, customers sometimes come away with the idea that in order to boost their credit score they have to pay money to a company or leave credit repair in the hands of so-called experts. Nothing could be further from the truth. It is perfectly possible to pay down debts and boost your credit on your own with no expensive help whatsoever. In fact, the following 101 tips can get you well on your way to boosting your credit score and saving you money. By the end of this ebook, you will be able to define a credit score, a credit report, and other key financial terms. Develop a personalized credit repair plan that addresses your unique financial situation. Find the resources and people who can help you repair your credit score.
