The Autonomous Child Carol Speekman Klass, 2023-02-13 Originally published in 1986 this book s focal point is a field study which asks whether the social childrearing context of daycare transmits to young children values different from those within America s dominant value tradition of individualism Daycare

critics were concerned that this social childrearing within daycare would weaken the family and promote collectivist rather than individualistic values and thereby threaten the social continuity of America's values. Through participant observation of four daycare teachers' interactions as they emphasize children's individual learning experiences and children's social learning experiences are examined. By focusing on the actions and words of daycare teachers and their children in their daily activities over time, this field study provides a conceptual model for an initial understanding of the relationship of daycare to the continuity of America's values.

Visual-Spatial Thinking for Advanced Learners, Grades 3-5 Emily Hollett, Anna Cassalia, 2022-07-29 Visual Spatial Thinking for Advanced Learners Grades 3-5 will teach students how to perceive and represent visual information and to mentally manipulate objects within space. Visual spatial thinking is a skill which helps students develop depth, complexity, and abstraction in thinking and inquiry. Working through the lessons and handouts in this book, students will develop spatial language, learn to visualize and mentally manipulate visual information, look at objects from varying perspectives, explore dimension, and seek structure in organizing visual information. This curriculum provides cohesive, focused, scaffolded lessons to teach each targeted area of competency, followed by authentic application activities for students to then apply their newly developed skill set. This book can be used as a stand-alone gifted curriculum or as part of an integrated curriculum. Each lesson ties in both reading and metacognitive skills, making it easy for teachers to incorporate into a variety of contexts.

Paper Crafts Annalees Lim, 2013-12-30 Crafts using paper are quick and easy to make. From personalized stationery and envelopes to lovely paper bouquets, these crafts don't require much more than a little glue, tape, and creativity. Readers follow clear instructions to complete each craft, using full-color photographs of each step to help them. There's plenty of room for innovation, too, including choosing colors, drawing designs, and using personal photographs. Readers will be cutting and pasting in no time.
