*Microsoft Office 2010 with Microsoft Office 2010 Evaluation Software* Microsoft Official Academic Course, 2012-01-24  
This Microsoft Office 2010 text introduces students to the various applications included in Microsoft Office. The program is based upon the same curriculum as the Microsoft Office Specialist Exam to build the skills students need to succeed at work. The Microsoft Official Academic Courseware MOAC Office 2010 Series is the only Official Academic Course program. Automated grading via OfficeGrader saves instructors time and enables consistent grading. Furthermore, the latest edition's use of color in screen captures allows users to follow on screen much easier as screen captures will look the exact same as the application. Additional projects throughout the book help users comprehend how a task is applied on the job. OfficeGrader helps instructors offer immediate feedback on all homework assignments and projects and additional animated tutorials on key Office tasks provides additional help on difficult topics.

**It Security Products for Corporate Users** Peter Stelzhammer, Andreas Clementi, Thomas Arlt, Philippe Rödlach, 2010. Most organizations are aware of the risks threatening their IT environment. Viruses, trojans, worms, exploits, and many other threats represent a serious danger for the IT department. A collapse of the IT system could mean grave financial losses right up to insolvency for a company. The IT departments of companies are conscious of this problem. Getting the best protection against these threats is the only issue. A simple file antivirus solution alone is totally inadequate as there are too many threats from contaminated e-mails, exploits, etc. What is required is a comprehensive suite that provides protection against all of these.

**Functional Diversity** Because of the immense functional diversity of various antivirus suites and corporate products, it is becoming increasingly difficult for decision makers in the IT sector to get a proper overview. Which product should one opt for and for which areas of protection? During these tests, our main focus has not been on malware detection rates but on the products' handling and user-friendliness and the scope of functionality. We have compiled the functional scope of various products in a detailed table. For malware detection rates of individual products, please refer to the tests of our website <http://www.av-comparatives.org>.
