Congress and Indian Nationalism Richard Sisson, Stanley Wolpert, 2024-07-26 Seventeen distinguished historians and

political scientists discuss the phenomenon of Indian Nationalism one hundred years after the founding of the Congress party. They offer important new interpretations of Nationalism's evolution during more than six decades of crucial change and rapid growth. As India's foremost political institution, the National Congress with its changing fortunes mirrored Indian aspirations, ideals, dreams, and failures during the country's struggle for nationhood. Many difficulties faced by the pre-independence Indian National Congress are critically examined for the first time in this volume. Major times of crisis and transition are considered as well as the tension between mass action and political control and the problem of creating and maintaining unity in the face of divisive social and economic interests and between deeply hostile religious communities. A composite portrait of the Congress Party emerges. We see a coalition of often conflicting communities and interests much like India itself struggling to stay together tenuously united by little more at times than a common enemy, the imperial British Raj. But linked together in precarious, seemingly haphazard fashion, shifting networks of elite political entrepreneurs manage to keep India's National Congress alive long enough to convince the British that it would be easier to Quit India than to try to hang on to it by force. With the abrupt transfer of power from the British to the independent Dominions of India and Pakistan in 1947, Congress provided institutional sinews for the administration of what had been British India and over five hundred Princely States. By contributing to a deeper understanding of India's nationalist experience, this volume may illuminate the experience of other Third World states. Essays by S. Bhattacharya, Judith M. Brown, Mushirul Hasan, Zoya Hasan, D. A. Low, Claude Markovits, John R. McLane, W. H. Morris Jones, Gyanendra Pandey, Bimal Prasad, Rajat Kanta Ray, Barbara N. Ramusack, Peter D. Reeves, Hitesranjan Sanyal, Richard Sisson, Stanley Wolpert, Eleanor Zelliott. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1988. **Many**

Ideas of Nationalism in India Bidyut Chakrabarty, 2025-06-27. This book is a comprehensive analysis of the many visions of nationalism and nationalist leadership that emerged during India's struggle for independence. The volume examines key nationalist thinkers such as Aurobindo, Gandhi, Tagore, Nazrul, Savarkar, and Ambedkar. It delineates different strands of nationalism in the post-moderate phase of nationalist movement and discusses political emancipation, social emancipation, and ethnic emancipation. Accessibly written for students with a helpful overview of how nationalist thought emerged in India, this book will be of great interest to students of South Asian history and politics. It will also be helpful for civil service aspirants. **Global Marxism** Simin Fadaee, 2024-09-10. A cutting-edge exploration of how Marx's ideas have been adopted and adapted by revolutionary thinkers in the Global South. For much of the twentieth century, the ideas of Karl Marx provided the backbone for social justice around the world. But today, the legacy of Marxism is contested, with some seeing it as Eurocentric and irrelevant to the wider global struggle. In *Global Marxism*, Simin Fadaee argues that Marxism remains a

living tradition and the cornerstone of revolutionary theory and practice in the Global South She explores the lives ideas and legacies of a group of revolutionaries who played an exceptional role in contributing to counter hegemonic change Figures such as Ho Chi Minh Kwame Nkrumah Ali Shariati and Subcomandante Marcos did not simply accept the version of Marxism that was given to them they adapted it to local conditions and contexts In doing this they demonstrated that Marxism is not a rigid set of propositions but an evolving force whose transformative potential remains enormous This global Marxism has much to teach us in the never ending task of grasping the changing historical conditions of capitalism and the complex world in which we live
