Level Document Army Combatives:

United States Army in the World War, 1917-1919: Policy-forming documents of the American Expeditionary Forces ,1988
A seventeen volume compilation of selected AEF records gathered by Army historians during the interwar years This collection in no way represents an exhaustive record of the Army s months in France but it is certainly worthy of serious consideration and thoughtful review by students of military history and strategy and will serve as a useful jumping off point for any earnest scholarship on the war from Foreword by William A Stofft *United States Army in the World War, 1917-1919: Policy-forming documents American Expeditionary Forces* United States. Department of the Army. Office of Military History,1948 Collected Documents ,1971 *Armor* ,2008 **Infantry** ,2010 **The Grenada Documents** Nicholas Dujmović,1988 **Authorization for Average Annual Strengths for the Military Services for Fiscal Year 1972, Supplement Manpower, Hearing Before ... 92-1, H.R. 6531, April 1971** United States. Congress. Senate. Armed Services,1971 **CML Army Chemical Review** ,2006 *British Army Veterans' Experiences of the Transition into Civilian Life* Emma Armstrong,2025-02-04 Over the last few decades the academic and public gaze has increasingly focused on military veterans The extant literature has documented a wealth of problems that emerge once a service leaver enters civilian life including homelessness mental health issues criminality and substance misuse Accordingly the intention to improve the wellbeing of veterans in the UK has certainly been evident within various government initiated strategies However most scholarly attention has concentrated on the few veterans who encounter these extreme transitions This book sheds light on the vast majority who are deemed to have an unproblematic transition on account of their employment status and lack of serious social or health issues by drawing on data from 58 interviews with Army veterans spouses of Army veterans and charity workers By mapping participants trajectory from pre military life to years after service a holistic theorisation of the transition is provided using the tenets of ultra realism It shows that for most merely being in employment was not an accurate measure of success Instead entrance to the civilian job market was characterised by precarity and intense competition between employees This served as a dichotomy to the work environment veterans were familiar with and caused tension between the subject and the ideology they were assimilated to In putting forward this argument this book advances the existing ultra realist theoretical framework and veteran research in an empirically informed manner

Village China at War Dagfinn Gatu,2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact the nature of this expansion remains disputed

Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns. The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio-economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata. The author also stresses the host of severe constraints that the party's policy ambitions ran up against such as massive destruction of the local economy by the Japanese army, the economic burden of running the resistance, peasant ambivalence to revolutionary changes and the shortage of trained cadres. Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves. This in turn allowed localities an autonomous dynamic that often conflicted with higher party echelons. Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution. History accelerated.

Navy V-12 Henry C. Herge, 1996. A history of the Navy V-12 Program during World War II. The Program provided opportunities for young men whose families had suffered during the difficult times of the Great Depression. These high school graduates were offered the golden opportunity to attend colleges and universities. At the end of the program more than 60,000 U.S. Navy and USMC officers had entered the armed forces for the war. Many also entered the U.S. Naval Reserve in the post-war period and served in Korea and Vietnam. With photos and 80 pages of biographies of individual members of the program. Many include photos then and now.

Sharpeville Tom Lodge, 2011-05-12. On 21 March 1960 several hundred black Africans were injured and 69 killed when South African police opened fire on demonstrators in the township of Sharpeville protesting against the Apartheid regime's racist pass laws. The Sharpeville Massacre, as the event has become known, signalled the start of armed resistance in South Africa and prompted worldwide condemnation of South Africa's Apartheid policies. The events at Sharpeville deeply affected the attitudes of both black and white in South Africa and provided a major stimulus to the development of an international Anti Apartheid movement. In Sharpeville Tom Lodge explains how and why the Massacre occurred, looking at the social and political background to the events of March 1960 as well as the sequence of events that prompted the shootings themselves. He then broadens his focus to explain the long-term consequences of Sharpeville, explaining how it affected South African politics over the following decades both domestically and also in the country's relationship with the rest of the world.
