Inquiry and the Common Core Violet H. Harada, Sharon Coatney, 2013-12-16 Practicing librarians and library educators demonstrate the power of inquiry to achieve the Common Core State Standards CCSS and promote school librarians as key partners in implementing this type of critical teaching and learning in K 12 schools With the adoption of the CCSS in most of the nation's schools educators and administrators at K 12 schools have a pressing need to find the best ways to implement these rigorous and comprehensive standards that challenge students to understand informational text and digital content at increasing levels of complexity This text provides faculty with much needed support in achieving this critical goal thoroughly describing inquiry learning and how it links to the CCSS The authors nearly 30 contributors total comprising librarians library media specialists educational leaders teachers from the kindergarten level to college professors and administrators each with direct experience and knowledge regarding the subject matter explain how the standards emphasis on in depth investigation and evidence based reading and writing skills dovetail perfectly with inquiry based learning initiatives Acclaimed thought leaders such as Jean Donham Kristin Fontischiaro Leslie Maniotes and Barbara Stripling clearly define and illuminate the librarian's role in school initiatives today and share lesson plans that have been proven effective in actual practice

Hollywood or History? Sarah J. Kaka, 2022-01-01 The rationale for the present

text Hollywood or History An Inquiry Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History stems from two main things First and foremost is the fact that the reviews of the first two volumes in the Hollywood or History series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners Classroom utility and teacher practice have continued to be the primary objectives in developing the Hollywood or History strategy The second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses on the themes of inequity and inequality throughout history and how teachers can utilize the Hollywood or History strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from There is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more The book provides 30 secondary lesson plans grades 6 12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today The intended audience for the book are teachers who teach social studies at the 6th 12th grade level both in the United States and other countries An additional audience will be college and university social studies history methods professors in the United States and worldwide
