

AUTOCRATIC LEADERSHIP

Autocratic leadership is a leadership style characterized by centralized decision-making authority, where a leader or ruler maintains full control and power.

OVERVIEW

Autocratic leadership entails a hierarchical and top-down approach, where the leader possesses extensive authority and exercises complete control over the organization or group.

The decision-making process is typically unilateral, with little to no consultation or involvement of others. Autocratic leaders often expect strict adherence and obedience from subordinates.

EXAMPLES

- **Genghis Khan** - The founder of the Mongol empire, Khan united many nomadic tribes by forcing them to submit to his will, a key trait of an autocratic leader.
- **Napoleon Bonaparte** - Like many wartime leaders, Napoleon became an increasingly detached autocrat who led from the top.
