

## Analytical Research Paper Sample: Impact of Advertising on Adolescents' Mentality

### Abstract

This research is dedicated to the controversial topic of advertising to children. The researcher has analyzed two points of view with regard to the responsibility for the effects of advertisement on adolescent mentality. The research is focused both on measures that should be taken by parents within the family and by government at the state level in order to decrease the negative impacts of advertising. The researcher also offers efficient methods to solve the problem of negative effects of advertisement on children.

### Introduction

Advertising is an indispensable part of the modern informational space. A great amount of advertising on TV and on the internet has a significant impact on adolescents' mentality, as children lack the experience and knowledge that would help them to differentiate real facts and marketing tools. Commercials influence adolescents' worldview in a negative way and enhance the attractiveness of a consumer lifestyle.

There are two main controversial points of view on the responsibility of advertising. The first statement claims parents to be responsible for protecting their children from the negative impact of advertising. The second statement considers this issue to be a problem that should be solved at the state level. This research is aimed at analyzing existing viewpoints with regard to influence of advertising on adolescents' mentality. The research will also offer a range of methods that will be helpful for channeling and restricting the negative effects of advertisements on children.

This study had a research purpose and a pedagogical purpose. Research disclosed the dynamic changing nature of learner internal and learner external variables that influence strategic competence for developing EFL ESL writers. This competence was found necessary for international graduate students to move from writer centered learning to reader centered communication. The research instruments proved to be practical tools for guiding learners processes of learning and writing a scholarly paper or article and avoiding plagiarism. The implication for teachers and program administrators is a systematic approach for developing self regulation control in EFL ESL writing. The first part of the book reports on the mixed methods quantitative and qualitative research. The second part gives an in depth report of the 6 cases used in the research. The third part presents tools for systematically developing self regulation in scholarly and academic writing with a student and teacher checklists for formative assessment that are valid and reliable and b a model syllabus for teachers that can be adapted across disciplines and genres. These tools deal with learning strategies and their applications to writing and writing instruction.
