

Personal SWOT

Identify Needs

Understand yourself and discover who you are and what you want

You have a choice to make when embarking on any journey. It is possible to simply set off and go somewhere that is anywhere but here. Choose a direction and move! Where do you end up? Well... somewhere! This is actually how most people approach their life and their career.

Think about the last time that you decided to go somewhere specific. Firstly you would know where you are at the start of the journey. Then you identify your destination. Then you identify the route from here to there and the means of transport. In choosing the mode of getting from here to there, you would take into consideration what you have that will enable you to get there from here. Perhaps a car, with fuel and of course, you would have the ability and license to drive. If that isn't an option for you, you might choose a bus, a train, maybe even cycle or walk. You would choose the most appropriate transport for you in your circumstances.

The same is true for developing your leadership

Do you know your strengths, you weaknesses, the opportunities you have and the threats to your leadership, your career, your life? _____

Define Outcome

We identify the opportunities and threats to yourself and your leadership future.

You will map your Strengths, Weaknesses, Opportunities and Threats on a grid. (Yes, it's the same idea as an organization SWOT analysis).

Together, your strengths and opportunities help identify your long term goals. While your weaknesses and the threats facing you need to be mitigated, planned for or managed to ensure that your goals remain attainable and realistic.

Explore Options

To begin your personal SWOT analysis, you begin by asking yourself a series of questions, answering them in the appropriate of each of the four quadrants:

Strengths

What sets you apart from others?

Your GAPP54 report will have identified your leadership strengths and you should include these here. You may use another, reputable leadership assessment for this.

Think also about your other strengths, all of your experience, education, hobbies as well.

- What are you really good at?
- What do other people ask you to do for them?
- What have you done that makes you really proud
- What connections do you have access to that others do not have?
- What skills do others recognize in you?

Mendoza,Mauno Pesonen,2013-11-11 Decision making in land management involves preferential selection among competing alternatives Often such choices are difficult owing to the complexity of the decision context Because the analytic hierarchy process AHP developed by Thomas Saaty in the 1970s has been successfully applied to many complex planning resource

allocation and priority setting problems in business energy health marketing natural resources and transportation more applications of the AHP in natural resources and environmental sciences are appearing regularly This realization has prompted the authors to collect some of the important works in this area and present them as a single volume for managers and scholars Because land management contains a somewhat unique set of features not found in other AHP application areas such as site specific decisions group participation and collaboration and incomplete scientific knowledge this text fills a void in the literature on management science and decision analysis for forest resources Community Organizing and

Community Building for Health and Welfare Meredith Minkler, 2012-07-16 The third edition of Community Organizing and Community Building for Health and Welfare provides new and more established ways to approach community building and organizing from collaborating with communities on assessment and issue selection to using the power of coalition building media advocacy and social media to enhance the effectiveness of such work With a strong emphasis on cultural relevance and humility this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform A tool kit of appendixes includes guidelines for assessing coalition effectiveness exercises for critical reflection on our own power and privilege and training tools such as policy bingo From former organizer and now President Barack Obama to academics and professionals in the fields of public health social work urban planning and community psychology the book offers a comprehensive vision and on the ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times Dr Minkler's course syllabus Although Dr Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for the midterm assignment she uses she arranged the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear **Metal Matrix Composites**

Distributed Energy Resources Management Pedro Faria, 2019-03-21 At present the impact of distributed energy resources in the operation of power and energy systems is unquestionable at the distribution level but also at the whole power system management level Increased flexibility is required to accommodate intermittent distributed generation and electric vehicle charging Demand response has already been proven to have a great potential to contribute to an increased system efficiency while bringing additional benefits especially to the consumers Distributed storage is also promising e.g. when jointly used with the currently increasing use of photovoltaic panels This book addresses the management of distributed energy resources The focus includes methods and techniques to achieve an optimized operation to aggregate the resources namely by virtual power players and to remunerate them The integration of distributed resources in electricity markets is also addressed as a main drive for their efficient use RESEARCH PROPOSAL: CRAFTING WITH AI AWARENESS

Samad Sepasgozar, 2024-09-09 Academic proposals have clear communication and standardized formatting in most fields while creative presentations might be acceptable in design or artistic fields Imagine your research proposal including a novel concept buried under flashy fonts diverse colors and confusing graphics resulting in losing the key message in a visual cacophony This chapter guides you through crafting a proposal with clear information that resonates with scientific norms ensuring clarity and coherence from the cover to the conclusion We'll explore font choices graphic elements and formatting with a clear structure to elevate your message without distracting from its core excellence A plain well structured research proposal should highlight the research rigor not the visual effects
