 future Do you want to ensure that inflation does not eat away at everything that you have worked so hard for Do you want to  
 own wealth outside of the paper financial system If your answer to these three questions is yes then you need to own real  
 money Not rands dollars or euros these are merely fiat currencies You want to own gold and silver as without them your  
 wealth is only worth the value of the ink and the paper on which it is printed For thousands of years holders of gold and  
 silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt fiscal  
 imprudence and ad infinitum money printing The proprietor of even a few ounces of gold is not only an investor but an  
 individual with the assurance that their wealth and purchasing power remains preserved Going for Gold is not an attempt to  
 coerce investors into allocating a portion of their total investment portfolio to precious metals Rather it speaks directly to the  
 South African investor and declutters and contextualises the vast amounts of information available about precious metals

providing counsel that the mainstream financial industry has disregarded at best and suppressed at worst
