

Microtek ADF-700

Installing and Getting Started

Introduction

The ADF-700 is a sheet feeder accessory for the Microtek ScanMaker i700.

The ADF-700 allows automatic scanning of up to 50 sheets of original scan material from A6 size (4.14" x 5.83") up to legal size (8.5" x 14"). Sheets to be scanned are fed from the feeder's top tray, guided and scanned as they pass the scanner's image sensor, and then exit into the feeder's bottom tray.

The ADF-700 installs easily by mounting onto the top of the ScanMaker i700 in place of the scanner lid, which is removed to make way for the document feeder.

ADF-700

Note: Please check the firmware version on your ScanMaker i700 before installing the ADF-700. If your firmware version is below 0.63, download the firmware updater. When the firmware update is complete, restart your computer and continue the installation of the ADF-700. For more details on downloading, refer to the Addendum at the end of this user guide.

Installing the ADF-700

Before you proceed with installation of ADF-700, make sure your scanner is turned off.

1. Remove the scanner lid. To do so, open the lid until it stands vertically, then pull upward to remove.
